WINGECARRIBEE SHIRE COUNCIL PUBLIC INQUIRY

At Wingecarribee Shire Council Chambers, Civic Centre, Elizabeth Street, Moss Vale, NSW 2577

Before: Mr Ross Glover (Commissioner)

Mr David Parish (Counsel Assisting) Mr Angus Broad (Officer Assisting) Ms Bron Hewson (Officer Assisting)

On 28 April 2022 at 12.00pm

(Day 15)

THE COMMISSIONER: 1 2 3 4 Wingecarribee Shire. 5 6 7

Yes, we'll resume with the last Before I do, I acknowledge the Gundungurra people as the traditional custodians of the land, described as the I pay my respects to Elders, both past, present and emerging. I'd also like to extend that respect to all Aboriginal or Torres Strait Islanders present here or who may be watching online today.

I remind those watching that these proceedings are not to be recorded, whether audio, video or by still image.

10 11 12

8 9

Mr Parish.

13 14

15

Thank you, Commissioner, the last witness is MR PARISH: Lisa Miscamble, the current general manager of the shire council.

16 17 18

THE COMMISSIONER: Ms Miscamble, do you wish to take Yes. an oath or an affirmation?

19 20 21

MS MISCAMBLE: An oath. Commissioner.

22 23

24 25

26 27

28 29

<LISA MISCAMBLE, sworn:</pre>

[12.07pm]

THE COMMISSIONER: A reminder to everybody, including myself, the transcribers who were here and did a great job during the hearings are watching online, which means that we'll have to speak very clearly into the microphone to make sure that it can be all picked up. I'm notoriously bad at it, but a reminder to all. Thank you.

30 31 32

<EXAMINATION BY MR PARISH:</pre>

33 34

35

36

37

38

39

40

41

MR PARISH: Q. Thank you, Commissioner. Ms Miscamble, can we start with your personal background and particularly your vocational background in the local government space? So, I've had a career in local government over I have worked at seven councils during that 30 years. time, including Sutherland, Marrickville, Campbelltown, Camden, Canada Bay, Hunters Hill and now here. Bachelor of Education and also a Masters of Business Administration.

- What was the post you held immediately preceding your Q. appointment here?
- 45 46 47

That's correct.

3 4 5

6 7

8

9

10

11

12

- Can you tell the Commissioner what your first steps were in terms of ascertaining the state of the council and what you perceived you were going to need to do when you came here?
- Yes. So, I commenced on 21 June 2021, and in that first week - it was the week before COVID so I was actually in the office - and then after that COVID hit and I was working remotely because I at that time lived in a hotspot in Sydney.

13 14 15

16 17

18 19

20

21

In the first six weeks I met with staff one-on-one via Teams, met with community groups, community associations majority of time via Teams and then post COVID in person. Undertook a review of strategic documents, the Community Strategic Plan, regional plan, looked it at the reviews that had been undertaken prior to my commencement, and started to pull together a bit of a view or a picture about where we were as an organisation.

22 23 24

25

26 27

28

I also looked at the 2019 staff survey results, the 2021 Community Satisfaction Survey results, met with general managers of neighbouring councils and also the regional stakeholders as well. So, it was very much an information-gathering exercise for the first six weeks or SO.

29 30 31

32

33

34

Q. I understand. One of the documents you had occasion to review was the 2012 Division of Local Government Promoting Better Practice Program Review Report; is that correct?

That's correct. 35 Α.

36 37

38

Do you recall what the takeaways from that Q. document were?

39 Some of the key points were around roles and 40 responsibilities between the councillors and staff, senior Issues were raised around Code of Conduct and the 41 number of Code of Conduct complaints or issues that had 42 43 been raised in that time. And at that time it was flagged by the Department of Local Government, which is now the 44 Office of Local Government, that if these matters weren't 45 addressed that it would lead to dysfunction within the 46 47 council.

- Q. Do you recall in that report, insofar as it dealt with the roles and responsibilities, what the concerns or problems were at that time?
- A. Broadly around understanding the role of the elected council and my words interference with staff-related responsibilities.
- Q. And, in comparing that report to the impression that you had gained from June 2021 onwards, had those issues in your view been resolved or at a high level were they still outstanding?
- A. From what I read and what I saw and what people told me in that initial period, those issues that were evident in 2012 were still evident in 2021.
- Q. Dealing first with the staff: you interviewed about 70 staff; is that correct?
- A. Approximately.
- Q. Can you give me, firstly, your high level impressions about the culture that they were working under and any specific examples, if you can give us those?
- A. So, in that initial period I met with approximately 70 staff via Teams majority, some in my first week and then the balance via Teams. When I met with the individual staff it was to gain a sense of who they were, what their role was, how long they'd been with council, what they saw as the things that the organisation did well, what we could improve on, what they saw as challenges, opportunities, and also just gaining a sense of their understanding of where we were now as an organisation as a council and where they would hope to be in 12 months' time or in the future.

As a general comment people were proud to - sorry, I would say - they are very committed to their work, they were proud to work with the council. A number expressed that over the last few years they didn't feel that they had that same level of pride. There was a feeling that different areas were siloed. Bullying, mentioning of bullying or intimidation was raised a number of times.

At the time I started meeting with individual staff there were concerns about when the next election would be and the impact of that, but I would also say in those discussions there was cautious optimism about change moving forward, as general comments.

16

17

22 23

24

21

36

37 38

39

45 46 47

44

- Do you have any impression what created that cautious optimism about change moving forward?
- From the conversations that were had in that time I think that one of the comments was made is, was that "We can now exhale". I think there was a feeling from individuals that they actually had time to focus on what they needed to do perhaps without some of the distractions that were happening at a political level or at a senior staff level, without wanting to sound critical of anybody, that was the feedback that I was receiving. I think they also saw that with some of the changes that there'd be an opportunity to actually move forward.
- And the bullying and intimidation that you mentioned, was that at a staff-staff level, at a senior staff-junior staff level, or at a councillor-senior staff level or indeed councillor-staff level?
- A combination. Examples between councillors and staff and also between senior staff or management and then between management and staff officer level.
- Can you give me your impression of the structure of the senior staff roles at the time that you came on board: was it an appropriate structure, was it a top-heavy structure, was it a structure which needed some tweaking? I think structures have to be appropriate for the time and what you're trying to achieve. When I arrived the review that Samantha Charlton undertook, which was the governance and human resource review, had been undertaken and in that review there are a number of recommendations. When I was appointed the interim administrator asked me to review the structure and form a view about how we should organise - how I felt as a general manager I should organise the structure to deliver what needed to be delivered.

So, in that first few weeks and taking on board the feedback looking at the structure I formed a view that we should move to a three-directorate structure rather than the former two deputy general manager structures. previous structure was quite narrow and deep. The deputy general managers had - there were two DGMs reporting to the general manager and they had quite a depth and breadth of responsibility.

The structure that we moved to provided for three

10

11

I understand. And, quite apart from the investigations you had made with staff, there were also staff surveys available to you; is that correct? Α. Correct.

12 13 14

15

16 17

- Do you recall what they revealed?
- Again, issues around communication, visibility of the executive and the management team; comments around bullying and harassment, intimidation; concerns around health and wellbeing and psychological wellbeing.

18 19 20

And in respect of the stakeholders in the community that you talked to in this investigation stage, what was the feedback that you were getting from them, if there were any common themes coming through?

23 24

25

26

27

28 29

30 31

32

21

22

In terms of the broad, just general community as well as community organisations, they had a varied level of experience with parts of the organisation and that was variable. They were very positive around some sections of council or individuals, but then also critical of others. There was a feeling that there wasn't an openness or a clear flow or open flow of communication as a general comment, but also a desire from the community and community groups to want to work with council and be involved in the decision-making process.

33 34 35

36

37

38

39

40

41

Q. We have had some evidence that the culture in the workplace was toxic around the time of the suspension and that has been to some extent refuted or disagreed by some of the senior staff who have subsequently left. have any view about whether there was a toxic work culture and indeed, if so, what that actually means in a practical sense?

42 43

44

45

46 47

The word "toxic" was used in the 2019 staff survey, the authors of that report did use that word, and I have heard that word used in meetings with individual staff, that it wasn't a healthy workplace. The flow-on from that is that, if you don't have a healthy and open workplace, it doesn't bring out the best in people and people aren't able

7

8

- There was some observations made by a staff member that, "If an organisation could have PTSD we would have it"; are you aware of that comment?
- I am, yes. Α.

9 10 11

12

13

14

- Do you have any views as to whether that was justified from the experience you had?
- That comment was made in one of the one-on-one discussions I had and I believe based on other reports I've read that that would be warranted.

15 16 17

18 19

20

23

24 25

26 27

28 29

30 31

32

- In respect of the workers' compensation claims made over the prior five years, you had occasion to review those claims; is that correct?
- At a high level, yes.

21 22

- Can you tell us what you recall the findings of that review were and what it means or what the effect of that was?
- Probably three key effects. In terms of workplace Α. health and safety there has been an increase in the number of claims and the cost of claims; that obviously has an impact on people, on humans and their health and wellbeing. It also has an impact on the finances of the organisation and means that funds that could be directed to more positive or proactive initiatives are being directed towards claims, but I think the most important thing is, where there are increases in claims, it's the human impact.

33 34 35

36

37

- Q. The shire council had a turnover of about 24 to 27 per cent over the past five years; does that sound about right to you as a number?
- Α. Approximately, yes.

38 39 40

41

42 43

44

45

- Q. What effect does that have on an organisation both in terms of institutional effectiveness and financially?
- When you have turnover like that it's very difficult to gain traction. So, when you have a churn with turnover or use of short-term contracts what it means is that it's very difficult for teams to gel; it's very difficult to form relationships both internally within teams to know who to go to when, but also externally when you're trying to

work with the community or other key stakeholders. It takes time when you bring someone on board to get them up to speed so that they are productive in the role. When you do have that turnover it also has an impact on morale and impact on teams and the broader organisation, and again, there's a financial cost in terms of the downtime or the lag between filling positions, the downtime when the person who's commencing comes up to speed.

8 9 10

11 12

13

1

2

4

5 6

7

- THE COMMISSIONER: Q. It might have been in the question, but over what time period was this being experienced, to your knowledge?
- A. At least the last few years. Anecdotally I've been told five to six years, but maybe longer.

14 15 16

17

18 19

20 21

22

Q. And, is there a benchmark figure that - I mean, accepting that no organisation is identical, but is there a benchmark figure that would be reasonable or is that not really something that can be done in local government given the disparity between organisations across the state?

A. I think it's dependent on the circumstance. It's good to have some turnover to bring in, you know, new and fresh ideas, but not at that level.

232425

Q. Not at that level?

No.

26 27 Α.

THE COMMISSIONER: Thank you.

28 29 30

31

32 33

34

35

36

37

38

39

40

41

42 43

44

45

MR PARISH: Q. We have some evidence that, by way of an explanation for the high turnover, perhaps the location of the shire relative to Sydney and the ability to attract younger workers might be a cause of high turnover. have a view as to whether that might be part of the cause or whether there's a link between the high turnover and the culture that we've previously identified with the council? I think it's a combination. There are roles within local government that are particularly hard to fill because the market is quite tight around engineering and planning in particular. There are some challenges with location and housing affordability's becoming an increasing issue, but there's also reputation. A local government is quite a small industry and people are aware of different councils, where they're at, their reputation, and that also has an impact and that's one of the areas that we're looking to address moving forward.

Within industry there have been comments and I know of at least two current managers who, when they accepted a role here, were - by their colleagues said, "Do you really want to go there?"

8 9 10

11 12

13

14 15

16

17

18 19

20

21

22

23

5 6

7

In respect of the investigations you took about the strategic planning and that level of the organisation, can you tell us what your impression was about whether the strategic planning was up to scratch and fit for purpose? There is the Community Strategic Plan, there are some high level plans, however, there are a number of gaps that need to be filled. In the last six months or eight months we've adopted the - the council have adopted the local housing strategy. We have then updated the population forecasts, the demography or demographic information, and are currently preparing a community and recreation facility strategy and an integrated transport strategy. There is a need to flesh out a lot more of that strategic framework and also ensure that it flows through from that strategic into action plans as well, so there are gaps.

24 25 26

27

28

29

- And these are things that in your experience and view ought to have been done at the time you came into the organisation?
- Again, every organisation is different.

30 31

Q. I might rephrase it.

32

33

- Could you ascertain any reason why it had not been 34 Q. done? 35 36
 - Α. No.

Yes.

Α.

37 38

39

40

41

- In respect of, just going back to staffing matters for a second, were you able to form any impression as to whether there was any political influence over some or any of the staffing matters when you came on board?
- Α. There was, yes.

42 43 44

45

- Can you give us some examples, and you don't have to give a specific example, of the general impression at least that you formed as to why that might be the case?
- Α. There's evidence of, where there was a particular

- Q. In respect of compliance functions, were you able to gain any impression as to whether the organisation was appropriately exercising its compliance functions?

 A. Could you maybe clarify "compliance" for me?

 Q. Well, for instance, I might just deal with loans to community and supporting organisations for a start?

A. So, broadly compliance?

- Q. Yes, broadly.
- A. In that first few months there were some examples where the loans, for example, under section 356 of the Local Government Act there are certain requirements in terms of advertising, financial assistance to groups, having clear policies around that, and in that review of loans to community or sporting groups and notwithstanding the purpose of the loan some of those compliance requirements don't appear to have been followed.

Q. Can I just go back to the staff investigations and survey that you dealt with. Did you talk to any staff about their impressions about how the use of the press by certain councillors might affect their morale and how they do their job?

A. Not directly, however, those comments came through in terms of, "What do you see as some of the challenges going forward?", and there were some concerns expressed about how council was being portrayed in the local media. And I think sometimes people forget, when council as a body is mentioned, there are individuals that actually work for council and so those criticisms or those negative comments can be taken very personally by people who actually are employed and want to feel proud that they work for the organisation.

Q. I might just take you to a document that you prepared for the ordinary meeting of council dated 16 March 2022, which is Exhibit M. Do you have that document in front of you?

A. I do.

Q. That's the document provided at 9.1 of that meeting

Q. The first one is: Yes.

15 16 17

Get the basics right: communication, response and delivery: get the organisation 'humming'.

18 19 20

21 22

Can you explain to us what, in your view, needs to be done or what has commenced to be done to get those basics riaht?

29

30 31

32

So, one of the key messages that came from the 2021 Community Satisfaction Survey and also in the conversations with individuals in the community as well as community groups was communication and ensuring that we -(a) we let people know what's happening, that people are aware of how they can engage with council, and also that it is a two-way open and honest, frank conversation. also, within the organisation with the staff one-on-ones, that was also raised but from the perspective that, "We do a lot of great things but we don't actually share that effectively with the community".

33 34

35

36

37 38

So, communication was about making sure that we involve people with that engagement, responding to the 2021 survey, and getting the organisation humming, basically breaking down the silos, so we look, we think, we act and we sound like one organisation.

39 40 41

42

43

44

45

46 47

So, some of the things that we are doing: we had a review by KPMG of our communications and we're implementing actions out of that. Improving the type of information: we're putting out in our weekly messages, the executive are undertaking what we're calling the executive listening We've had 17 sessions organised, we've completed 12 and we have another five to go, and that's going out to the

7

8

9

36

37

32

38 39 40

41

42

43 44

45 46 47 villages, localities and towns. As part of that re-connection with the community and understanding and listening to what their concerns are, needs, wants, aspirations, and then how can we work together.

We've also appointed a place liaison officer. a strong message from the villages and localities was that they felt forgotten and that the three towns of Mittagong. Bowral and Moss Vale seem to have all the attention. Through the place liaison officer that gives those villages and localities a central contact point, a bit of a conduit into the organisation; we can be a bit difficult sometimes to navigate, so trying to make it easier.

We're moving to a place-based approach as well, so looking at working in places and tailoring our response to places, and currently have the Robertson Place Plan underway as part of that.

We're also having a program of meeting with community groups, so the executive and myself will go to different functions, different meeting groups, speak to groups, again, to have that dialogue and look for opportunities to work together but also share, you know, what we're doing as a council and the direction.

- You might just have to explain to me what you mean by a "place-based approach"?
- So, local government, we have many, many disciplines in local government: you have engineers, town planners, transport people and often you will look at a place in terms of your own discipline. By taking a place-based approach it's looking at the place and then how those disciplines can then work together to create a better place.
- The next on your list is to secure grants. Q. Thank you. Can you tell us what steps are being taken or are proposed to be taken in that respect?
- So, the reason for including secure grants was one of the pieces of feedback I received when I commenced was that Wingecarribee as a local government area had missed out on a lot of grants that were available to Regional Councils.

Grants are important for two reasons: one is, we have a lot of infrastructure we need to provide, there are a lot of projects we need to provide and it's good to secure

41

42 43

44 45 46

47

external funding, but also over time we do need to reduce our reliance on rates income. I think our reliance on rates income is over 70 per cent, so if we can diversify our revenue base moving away from that majority of rates. that's also a better outcome.

So, we employed a grants management officer; unfortunately they left due to family reasons, so we have an acting grants officer at the moment. We've been very fortunate in the last six months to secure some large grants to assist with the bushfire recovery for water tanks, for an off-leash dog park at Bundanoon, for a recovery officer and program money for a further two years.

We have received financial assistance to undertake design work along Old South Road, an additional \$1.1m, and we've recently also secured a grant for \$4.6m for a detention basin as well as smaller grants as well, so they're opportunities to progress things that are in our CSP and in our delivery plan and, again, meeting community needs.

- The next one there, "Plan for Thank you. Infrastructure", what's being done in that respect or proposed to be done?
- So, council adopted the local housing strategy around July/August last year, that now sets the development pattern over the next 20 years for how we're going to accommodate and provide for our community.

We're now in the process, we've commissioned the Community and Recreation Facility Strategy and we should have a draft by July, it's on the council business paper for the extraordinary meeting next week. That will look at the assets we have, the current facilities we have, and then what is needed over the next 20 years to provide for our community based on population need as well as contemporary practice.

We're currently reviewing the asset management plan, we're also in the process of commissioning the Transport for Strategy Program, that's out for tender at the moment, and we're also preparing some master plans; the first one will be the Bowral Master Plan.

The next one says, "Planning and Q. Thank you. Development needs to be more dynamic". Can you explain what you mean by that and what steps are being taken to

So, council adopted the local strategic planning statement, that's a bit of a forerunner for the review of the LEP, the Local Environment Plan. There's a need and it was highlighted in the Writing the Wrongs report by Malcolm Ryan to review the LEP and the DCPs to bring them up-to-date, bring them into synch.

8 9 10

11 12

13

14

1 2 3

4

5

6

7

The other work that we're doing to support that or as a lead into that is undertaking a review of our residential controls, our medium density controls. We've also had meetings with the Department of Planning to secure additional funds for further strategic work and studies we need to undertake, including employment land studies.

15 16 17

18 19

20

21 22

23

24

We've commissioned and have a draft vision for the Southern Highlands Innovation Precinct; that was land that was re-zoned over 20 years ago and has yet to be activated, so looking at how that can be taken forward. Why that's important is that that land has the capacity to grow local jobs, and what that then means is that people do not need to commute out of the area for work and whether, within that vision, we can also provide employment for younger people so we can retain younger people within our shire.

25 26 27

28 29

30 31

32

33

34

35

36

37

38

39

40

41

42 43

44

The next one there is, "Local economic development is critical". Can you explain what you mean by that and what steps are or will be taken to make that happen? So, after the last 12 months there's been quite a lot of work done with local business. There was a Small Business Commissioner's report undertaken in early 2021. We had an economic roundtable with local business in June 2021 as part of the re-engagement. There was a feeling from business that council was difficult to deal with, and again, our planning controls perhaps were limiting business opportunities, for example, in the visitor economy, farm gate and agribusiness areas, agritourism. So, with that local economic development re-engaging with business and with the Visitor Economy to put in place strategies when COVID was happening and we partnered with the Visitor Economy and undertook a social media campaign and that drove up visitation and, I guess, the eyes on the Highlands, and we're also doing a lot of work in terms of events as well.

45 46 47

Q. This isn't in the summary but it's probably a good

11 12 13

42 43

45 46 47

44

The evidence we've had has frequently time to ask. returned to the issue of heritage in the shire council area and the need to protect heritage and how that can be a flash point and, very broadly, I guess, the Pin Oaks on Station Street can be an example of not the only problem that community members had with the Station Street bypass but which was part of it.

In your view, either in respect of the council or just more generally in your experience, how does a general manager and the governing body reconcile a deal with those competing interests of local economic development. infrastructure planning, dynamic planning, whilst also protecting the heritage of an area? Α. It's a challenge.

- Q. Yes, probably not a very fair question.
- It's about understanding what makes a place unique, and you can't stop change, you can't stop growth, but what you can do is take a strategic approach where you identify what makes an area unique or what its strengths are, its attractors are, and setting controls or setting policy that enables the retention of what's valued whilst still optimising growth.
- So, if I use heritage, it's looking at buildings that there might be a re-adaptive use of a building. looking, particularly in the Highlands, at the landscape, the cultural landscape; trees, gardens are really important, so how that is factored into the controls that are set, use of materials, it's a balance and it's working with developers, working with proponents and having a clear strategic framework and the policies that support that.
- Q. So that's something which, I take from your answer, primarily happens at a strategic rather than an operational level through the DCPs and the LEP? Α. Yes.
- Q. Thank you. Sorry, that was a digression.
- Q. THE COMMISSIONER: Sorry, before you return, is that something that on your arrival you formed a view needed to be developed or implemented, that overarching strategic framework?
- There's a bit there's more work to be done in that Α. area, yes.

17

18

23

242526272829

40

41

42 43 44

- Q. And does part of that process involve effective communication with the community so that the council's overall strategy, not only takes into account feedback but, once it's resolved the community understands where and why the council are doing things? Would you agree with that? A. Correct, yes.
- Q. And, if there is that effective communication, does that go some way to I'll withdraw that, I'll put it in a different way. There will always be decisions made by council that certain sections of the community do not agree with; is that a fair general proposition at a very high level?

 A. Yes.
- Let's just deal with it in the example that Mr Parish has used, that is, the competition between what might be seen as economic progress and heritage. How does an organisation effectively try to avoid getting into a situation of conflict with the community about those Are there tools that can be used, are there thinas? methods that can be implemented to try and, if not avoid, at least soften those sorts of disputes? That's not a very clear question but do you understand what I'm driving at? I understand. It is about process I think, and I'm not a planner, so I'll put that there, but it is about process and being very clear about what's the strategic intent and the communication and engagement that goes with that and how people can have a say; there will be the broad community, there will be interest groups; you know, you'll have heritage societies or historical societies that will have very strong views; there will be property owners who will be impacted by decisions as well, and so, it's balancing all of that up and working out, (a) that there's a clear process, what will deliver the best and fairest outcome and at the end of the day there will be people that may not be happy, but if they feel that they've had a fair say and they feel that they have been listened to and their concerns or their ideas have been taken on board but they understand at the end of the day how that was considered or dealt with, most reasonable people would accept that if they felt that it was a fair process.
- Q. And part of that, touching on the last part of your answer, involves perhaps an explanation of why a particular path was followed --

Q. -- where feedback might have said you can do it a different way; would you agree with that?

A. Yes.

Q. Are there policies and frameworks in which that type of consultation with the community and stakeholders is undertaken?

A. We have a community engagement policy, it is something we need to review. I think, and again without sounding critical, I think as an organisation that's something we need to improve on and being very clear, when we do go out to consult, people understand that the framework we use is IAP 2, so it's on a continuum, and consultation can be at the inform level where, you know, explaining what we're doing, why we're doing it and how it's going to happen if it's, say, for path replacement, right through to empowerment which is, you know, "Tell us what you would like to do with this", and then there are variations within that.

I think as an organisation, when we do go out to consult with our community we need to be very clear about what type of consultation and the purpose, how we're going to use your feedback when you give it to us and how we're now then going to feed back to you what we did with it. So, some areas do it very well; others, I think we've got to build a bit more capacity in those areas.

Q. And the lack of process or clarity around that, can that lead to a breakdown of trust between the community and the organisation if not implemented effectively; would you agree with that?

A. Yes.

 Q. Is that something that you've seen in your feedback listening sessions with the community, that expression that you weren't listening and we can't trust you?

A. Yes.

- Q. Not you personally, the organisation; I'm sorry, I shouldn't have put it that way.
- A. Well, we are working to rebuild trust. Yes, I think if people don't understand or they don't feel that they've had the information, then that breeds mistrust and sometimes that may be warranted and other times it may not

be, but when that information isn't forthcoming or it's not open, it doesn't breed a trusting relationship.

THE COMMISSIONER: Yes, thank you. Sorry, Mr Parish, to interrupt.

MR PARISH: Thank you, Commissioner.

Q. I might actually take you on another digression before we go back to this document, I'm starting to remember what this inquiry is about after two subsequent back-to-back long weekends.

The local planning panel, in your view, does that assist with the balancing act and the community confidence that is necessary in planning decisions? Do you have a view on that?

A. I do. I believe it adds a layer of independence but also the benefit to councillors is that they are able then to be active in advocating or objecting to a particular DA because they're not the decision maker; whereas, when their DAs come to the council, that's a different situation.

Q. Have you had any feedback so far from the community or indeed staff about the implementation of the local planning panel?

A. On the whole from the staff side I think it's been seen as a positive. I haven't had any direct feedback from community.

 Q. Thank you. Back to the summary now on page 94 of Exhibit M. We're dealing next with the, "Strong governance framework, understanding the principles with clear roles and responsibilities", can you explain what you mean by that and what steps you are undertaking in that regard?

A. Yep. So, with the governance side it's a reset. So, we've rolled out training in terms of the code - it's about training and awareness, so we've rolled out the Code of Conduct trainings; staff are aware of their roles and responsibilities under that.

We're currently in phase 2 of our structural - or our restructure; as part of that we'll also be making it much clearer in terms of roles and responsibilities, there was some overlap or lack of clarity under the previous structure. Setting up a rolling program of policy reviews, putting in place the legislative compliance framework.

 We've recently employed a new coordinator governance, so will be taking a stronger role with that. We've also updated the Code of Meeting Practice, staff and councillor interaction policy as well.

- Q. Just, that comment you made about phase 1: is that the Horizons that you refer to in the roadmap earlier on?
 A. Yep.
- Q. I might just take you to page 11 of the report. It might be an appropriate time if you could just explain to us what the three Horizons are and what stage we're at at the moment?
- A. Horizon 1: so, basically there's a lot of work to be done within the organisation to build a strong base, and until we have strong foundations it's going to be very difficult to move forward because we won't be standing on anything solid.
- So, in setting the roadmap it's framed around three Horizons: Horizon 1 is around back to basics, so it's about building those strong foundations, around refocussing on the future and setting that strategic framework.

Around re-invigorating our workplace and that's around getting our structure in place, the culture, attraction and retention strategies, communication.

And, the third element of the Horizon 1 is about rebuilding trust with our community but also within the organisation, so a lot of work around re-establishing relationships, getting the communication effective, two-way communication, and realistically we're looking at a three-year timeframe.

Culture's very difficult to change; you know, we've got a few hundred people who have their own personalities, their own experiences, and changing that and moving us to a different way of operating will take time.

The second Horizon is between 2025 and 2026 and that's about adapting to agility, starting to be a bit more agile in how we respond, how we deliver. And then Horizon 3, 2027 and onwards is about being a mature organisation and being more of an innovating phase and a leader again in local government.

THE COMMISSIONER: Q. I'm sorry, just to round that out. So, I think you said phase 2 of the - that's phase 2 of the structural review of the organisation; is that what you -- A. We're - sorry, Commissioner, we're currently going through phase 2 of the structure which is part of Horizon 1 which is making sure we've got a strong foundation and we have basically the right people in the right positions with clear responsibilities, accountabilities and deliverables.

THE COMMISSIONER: Yes, thank you.

MR PARISH: Q. Pardon me, and just to clarify on that: it's three years that you anticipate until the completion of Horizon 1?

A. Yes.

Q. And that's from 16 March 2022, very roughly? A. Yes.

Q. Thank you. Back to page 94, the next observed next steps are to:

Ensure appropriate training and awareness of roles, responsibilities in our legislative framework.

Can you tell me what you mean by that and what steps are being taken to implement that?

A. Yep. So, with the training and awareness, it is linked to phase 2 of the structure, so making sure that we have people in their roles with clear responsibilities, accountabilities and deliverables. We're also rolling out training, as mentioned before, the Code of Conduct, some informal training and mentoring of our managers and leadership team. Also setting up meetings, so we've commenced our managers meetings now and at each managers' meeting we have a guest speaker, but also have a focus on corporate strategy and resourcing, budgets, and also having

each manager present on a topic of interest or shining a spotlight on their area as well, so it's going to be a process and we're at the beginning of that.

Q. Does that include at least to prepare now councillor induction training?

A. That's correct. Back in July there was a report on

the council business paper that was prepared in 1 2 anticipation of what we understood to be the elections 3 in September 2021 and that report set out a detailed 4 councillor induction program. And what was also proposed 5 as part of that induction program was, once the council 6 were elected, that an individual program also be developed 7 for each councillor based on the capability framework that LG New South Wales have. 8 9 THE COMMISSIONER: Q. I'm sorry, is this a report that 10 went to council at that time? 11 That's correct. 12 13 Did you mention a date, just out of interest? 14 15 Α. I believe it was July. 16 17 THE COMMISSIONER: Thank you. 18 19 MR PARISH: Q. Did you form any view as to the program in place for councillor induction at the time that you came 20 into the organisation? 21 No. 22 Α. 23 Q. 24 The next one is to: 25

Foster healthy, collaborative work practices that engage our people.

Can you explain what you mean by that and what steps have been taken?

A. Yep. So, putting in place both formal and informal. So, it started when I started and meeting with people one-on-one and also with teams via Teams via Zoom, and just starting to talk to teams about, you know, what are their thoughts, where are we going, and again, being visible. Some of the comments that I had at that time were that, "This is the first time the general manager's ever spoken to me and I've been here for 27 years", so it's that informal one-on-one.

Putting in place - we've introduced very simple things like, "Caught you being awesome awards" where, you know, we ask for people to look for positives or look for a team member that has done something, could be small, could be large, and then put them forward to be recognised.

We had a whole staff meeting back in March, it's the

32

33

34

35

36

37

38 39

40

41

42 43

44

- The councillor-staff interaction is part of that, yes.
- Q. Has that policy been updated or reviewed in your time? Α. It has.
- Q. The next one that you have is to:

Apply consistency in approach: whether internally with policy and procedures or externally in the advice and approach we take.

Can you explain what you mean by that and what steps are being taken or will be taken to implement that? The feedback in the initial period and based on some of the reports I read was that there was an inconsistent approach in terms of how matters were dealt with. particularly internal matters within human resources or management of people, and so, having very - basically there's one rule rather than different rules and applying those consistently and fairly.

So, part of that is looking at the policies within HR or people in culture that we now call them; making it a lot clearer around rewards and recognition, so salary increases. We're still on a learning process there but we are reviewing - we're currently reviewing the salary system as well to ensure that it is a clear and understood process that we're going through.

The next one is to: Q.

> Improve implementation of systems and processes.

Can you explain what you mean by that and what's being done?

Α. We are very paper-heavy. Over the last two years,

44 45 46

47

three years, there has been a lot of work done in the IT space in terms of upgrading our systems, however, we still So, the types of things have some more work to be done. we're implementing and we should be launching in May, our customer request management system. What that means is that we will actually have a system to track customer requests as they come in and keep a record of that; at the moment we don't have that capacity.

Looking at digitising our paper-based records and moving to more of an open access information on our website, augmenting our website. Using analytics and data, real-time data to gather information from the community. Looking at streamlining processes, so in the planning space looking at how we can simplify that process but also improving the amount and the type of information we have on our DA tracking system.

We're also looking at our asset management plan and putting more information on our website so people understand the condition of our assets and where priorities are and where money is being spent.

- Q. I recall some evidence critical of the asset management of the council and the fact that it hadn't even audited or undertaken a process of identifying every single asset of the council. Do you have any knowledge or view as to whether such an audit or stocktake had taken place and indeed whether it's even possible in a council to undertake such an asset strategy?
- There is an asset management plan but we're in the process of reviewing that and updating that.
- And the implementation of the IT systems is obviously something which is clearly operational, but do you have any view or impression as to whether the initiative to upgrade or improve IT systems is something that ought to come from the strategic governing body level or is it something solely within the domain of a general manager at the operational level?
- From the council's perspective or the governing body, Α. in terms of a strategic approach, it would be what is the outcome that they're trying to achieve, and then at the operational level or at the general manager's level it's then, how do we enact that? So, if the feedback from the elected body or the governing body is, you know, "We'd like to make our information more accessible", then we would

9

10

11

12

13

14 15

16

17

18

1 2

3

4

5

What about the counterpoint to that where it's the general manager whose initiative it is to upgrade IT systems; how would that take place? Would it still require the general manager to go to the governing body and say, "Here's what I think needs to be done, you need to put in place something at a strategic level to make it happen?" I mean, there's obviously the money aspect of it but? Yep, so you'd have those conversations through the budget process and also when you set the resourcing plans. So, within the integrated planning and reporting framework you will generally have the asset management plan, the workforce management plan and the long-term financial plan.

19 20 21

22

23

24

25

26 27

Within our framework we're adding a digital or IT resourcing strategy because it is such a large component of what we do and I think the future of local government in terms of how we communicate and how we can be efficient and effective, so that plan sits within the IP&R framework and you would have that conversation with the council when you set the budget and also when they consider the resourcing strategies.

28 29 30

Q. The next observation you have is the need to:

31 32 33

Have a clear vision for the future and be proactive.

34 35

36

37

38 39

40

41

42 43

44

45

46 47

Can you explain what you mean by that and what steps have been taken or will be taken?

So that's about refocussing on the future, basically have clear strategies, and once you have - strategies like the community and recreation facilities strategy or the integrated transport strategy; it provides a very clear focus for the future over the next 20 years, it provides certainty to the community and different sporting groups or community groups when we're talking about community rec It also gives the council the greater facilities. opportunity to take advantage of grant opportunities as they come up, and also enables the council to be more proactive around opportunities, and it signals to potential

Q. The next one you have there is to:

Sorry, Mr Parish: in Horizon 1.

12 13

14

Ensure role clarity between the elected Council and Administration and the rules of engagement.

15 16 17

18 19

20

21 22

23

24 25

26 27

28

29

I think we've touched on a few of those, but can you explain what you mean by that to the extent that you're not repeating yourself, tell me what you intend to do? So at a broad level there's the induction program and, yes, you have the Local Government Act, but it's also important to then translate that into what that actually means on a day-to-day. So, as an example, there's the councillor-staff interaction policy that sets in terms of who councillors can speak to, and usually it is at the manager level or tier 3. But then, what is the process when you do want to request information and then how is that reported back? So, setting up clear processes that underpin those policies and making it very clear, this is who you go to, this is the expectation, this would be the turnaround time, and this is what you can expect.

30 31 32

> Was that policy lacking when you entered the Q. organisation or sufficient? I can't really answer that.

34 35 36

33

The last --

37 38 39

THE COMMISSIONER: Just before we leave that.

40 41

42 43

That's because policies of that kind have to be viewed Q. in the context in which they're implemented at the time; is that why you --In part.

44 Α.

Q.

45 46

47

-- it would be difficult for you to express a view on something that was implemented a number of years before you

1 2 3	arrived; is that fair? A. In part, and policies evolve.
4 5	Q. Yes. You see room for improvement, I take it? A. There's always room for improvement.
6 7 8	THE COMMISSIONER: Yes, thank you.
9 10	MR PARISH: Q. Lastly in your summary is the need to:
10 11 12 13 14 15	Improve communication internally and externally to build trust: early and open communication and building a shared understanding (e.g. service levels for the community & councillors).
17 18 19 20 21 22 23 24 25 26 27	Again, I think we've touched on a few of these topics throughout the morning or afternoon, but to the extent that you're not repeating yourself can you explain what you mean by that and what steps have been taken? A. So, in terms of internal communication, I'd say 95 per cent of the time I've sent out a weekly update to all staff since I've been here, so again a quick update but just any key highlights as well as recognising people for the work that they've done or particular highlights, looking at regular managers meetings, we have weekly executive meetings, trying to get that flow of
28 29 30	communication, that's still a work-in-progress but getting that flow of communication between the executive and teams and then back again.
31 32 33 34 35 36 37	Ensuring we have regular work health and safety committee meetings, consultative committee meetings, and externally again being available if groups wish to meet, whether it's with the executive or myself, being available, being open to meet. As I mentioned before, the listening tours, so just doing I guess a lot of rebuilding and relationship building
38 39	relationship building.

41 42

- Do I take it that these steps forward that you intend Q. to take or are taking relate to Horizon 1?
- Α. That's correct, yep.

43 44 45

46 47

And therefore I take it that, once these are completed in the next three years, there will be another set of goals, aims, strategies, to achieve Horizon 2; is that correct?

- That's correct. 1 Α. 2 3 And that will be done when you get there, as it were? 4 Α. That's right. 5 6
 - That's a definition of "horizon" really, isn't it? Can I take you to the community survey which we've dealt with in some detail in one of the exhibits but we also have within the roadmap itself. Can I take you to page 52 of your report.
 - Α. Yep.

7

8

9 10

13

14 15

16 17

18 19

20

21 22

23

24

25

26 27

28

29

30 31

32

33

34

35

36

37

38 39

40 41

42 43

- That commences at the top left there with, "Our Community: what they think", do you see that? Α. Yes.
 - And you then say that you have set out below the key points from the 2021 Community Survey. Do you see that? Α. Yes.
 - I take it from that, therefore, that the following pages that we'll go to now are derived from your understanding and indeed are extracts from that 2021 Community Survey; is that correct?
 - Α. That's correct, yes.
 - Can I take you over to page 54 to start with. Can you just either give us your impressions or interpret for us what you think or what you understand the results of this survey to be, firstly in respect of the council's image: good, bad, about right?
 - I think what the survey results show is that a small percentage of people felt that the image was excellent or very good, and there was a decline between 2019 and 2021 in terms of the community feeling that it was good and that there was probably growth in the very poor, poor and poor areas in 2021 as compared to 2019.
 - Is that a number accepting that we can always do better - that is a primary focus for you of raising, getting higher?
 - You would like to think majority of people would be in the good-to-excellent percentage.
- 45 Perhaps a more diplomatic way of putting the question at least would have been, is this within the mean of the 46 47 bounds of what you would expect or do you think that there

- you're implementing at present; is that correct?
- Α. That's correct.
- And that's something which, at least in respect of Horizon 1, is something which is going to be two or three years away; is that correct?
- So, looking at the council image, and That's correct. only 25 per cent of residents rated council's image as good With effective communication, and I think to excellent. rebuilding relationships and having mutual respect, you

39

40

41

42 43

44

45

46

4

5

THE COMMISSIONER: Q. Can I just ask you generally about the importance of community surveys of this kind - I think there's some water there if you need it.

Α. Thank you.

6 7 8

9

10

11 12

13

14 15

16

17

18 19

- What function do they have in the organisation generally? What's the purpose and what do you do with them?
- Α. Yes. Trends are important, understanding the context as well, but also using them to drive priorities in terms of focus, whether that be with resources, whether it be So, as an example, the top priority for council was around improving and maintaining roads and so we've got a very clear focus on roads maintenance at the moment but also our roads program and major - basically major expenditure in renewal and reconstruction works as well as interim measures around putting on additional pothole crews to maintain, so it should drive the priorities of the council.

21 22 23

24

25

20

- Through the Community Strategic Plan delivery programs, operational --
- And operational plan budget, yes. Α.

26 27

28

Is it also a way of measuring the council's performance against those overall strategic plans? Α. Yes.

29 30 31

32

33

34

I might have this wrong, and I haven't looked at it recently, but I seem to recall the Community Strategic Plan includes as a performance metric feedback via the community surveys; have I understood that correctly? Α. Yes.

35

36 37

38

41

42 43

44 45

- So, in a way I suppose would it be fair to say this forms part of the planning, reporting and assessment at the 39 strategic level; is that fair? 40
 - That's fair. It gives you an indication, you know, are you heading in the right direction or not and do you need to recalibrate; are there areas that need additional attention, you know, so communication,
 - decision-making/governance was one, so that's about our practice about how we do things. Some of the feedback around the roads, that's about how we allocate resourcing and also how we explain how we're allocating resourcing and

the prioritisation.

Q. And I suppose it also enables the organisation to understand if the community's priorities have changed given that there will always be competition on the council's resourcing to achieve a variety of aims; is that fair?

A. That's correct, and I think, too, over time as you hope you achieve or you address concern areas then there will be changes in that. So, as an example, if in an area there might be concerns around council's response to environmental matters; once that's addressed or the community feel, yes, there are programs in place or things have been addressed, then it may shift to a different area of focus, so it will change over time.

THE COMMISSIONER: Yes, thank you. Yes, Mr Parish.

MR PARISH: Q. If the Commissioner asked you the same line of questioning but in respect of staff surveys instead of community surveys, would you give broadly the same answers or are they to be distinguished in terms of their importance and effect on the planning, reporting and assessment framework?

 A. So, staff surveys will influence how we look at training; might be around health and wellbeing initiatives, could be around work and health safety practices, or it could be providing - depending on what the results are, it could be about providing additional training to supervisory staff around having difficult conversations or how to lead and manage.

MR PARISH: Thank you. Commissioner, I was going to move on from the community survey, I know you've always got a particular interest in it; if you --

THE COMMISSIONER: No, I think you've explored it. I just see the time, I was proposing to take a short break at 1.30, so shall I do that now?

MR PARISH: Yes, thank you, Commissioner.

THE COMMISSIONER: Ms Miscamble I was going to take a short break so we can stretch our legs. I'll take 15 minutes and I'll start again at 20 to 2.

MR PARISH: Thank you, Commissioner.

MR PARISH:

1 2 3

Yes, Mr Parish. THE COMMISSIONER:

4

5

6

7

8 9 10

11 12 13

14 15

17 18

16

19 20

21 22 23

24 25 26

27

32 33 34

35

41 42 43

40

45 46

44

47

The first thing I might do is ask Ms Miscamble to identify one of the other documents you referred to before. If she could be shown the Corporate Relations Service Is that the report you were referring to before titled, "Corporate Relations Service Review Final Report Wingecarribee Shire Council September 2021"? Yes.

Thank you, Commissioner.

MR PARISH: Thank you. Commissioner, at this stage I might just ask for it back. I am going to tender a bunch of documents soon and, rather than mark it for identification or put it out of order, I might just do it when the time comes.

THE COMMISSIONER: Yes. that's fine.

- Before the document goes back, Ms Miscamble, can you just in a general sense tell me what this report was, why it was commissioned and what it's being used for now, if anvthing?
- Yes. So, in the 2021 Community Satisfaction Survey communication was highlighted as one of the areas that council needed to put greater focus on, so we engaged KPMG to undertake what was called a corporate relations review which, in essence, was about communication and engagement and it looked at what we currently were doing and then has made recommendations moving forward.

Some of the recommendations are around resourcing and providing greater resource to that area which we're addressing through phase 2 of our restructure which is underway, moving from a number of different channels to speaking with one voice and having one consistent channel, and also just looking at the regularity, the type of communication and, in a sense, how we were doing that.

Thank you. While I'm on the topic of reports, do you still have your - I'll call it "your roadmap document", Exhibit M, in front of you; do you have that? Α. Yes.

5

6

On the right-hand side of that page is a bit of a timeline and there's reference to various reviews and reports that have been commissioned: do you see that? Yes. Α.

7 8 9

10

11 12

13

- Would you mind casting your eye down that list and then tell me if there are any other reviews or reports that have been commissioned that aren't - may not have made its way in there, if any?
- I think, I believe the majority would be on there, yes.

14 15 16

Thank you. Yes, Mr Parish. THE COMMISSIONER:

17 18

19

20

21

MR PARISH: Q. I just want to ask you a few general questions and tap into your experience as a general manager rather than ask specific questions about this council, although buy all means if you feel like giving an example, do so.

22 23 24

25

26

27

I firstly want to ask about the relationship between a general manager and the chair of a meeting, whether that be the mayor or someone else. Can you explain to us how you understand the role of the GM to be in respect of supporting or providing information or assistance to a chair in a meeting context?

28 29 30

31

32

33

As a general comment the general manager's there to provide advice and support to the council and to the mayor of the day; in a council meeting to provide advice to the mayor if there are any procedural matters that need to be clarified.

34 35 36

37

38

39

In your experience does that include having some sort of unspoken codes or ways to identify when you might need to intervene and deal with something on behalf of the chair, or is that something you've experienced before, or is that not always so covert?

40 41 42

In my previous role with one of my mayors there was Α. that opportunity that, if I needed to intervene, we had a way of doing that, yes.

43 44 45

46 47

And in your experience, again at a general level, is it unusual or appropriate for a general manager and a mayor, or whoever is chairing, to have a discussion perhaps

- Part of the role my view part of the role of the general manager is to support the mayor and to provide feedback, frank and fearless advice, and part of that can involve providing guidance or feedback in terms of where there might be opportunities to improve particular ways that things are managed.
- My next, again hypothetical, high level Thank you. question is, how councillor conduct in the way that they behave towards each other can affect staff or whether it does affect staff in an organisation: is it something which staff can be insulated from or is it effectively something which does trickle down into the staff or senior staff? I think senior staff, when there is discord in a council senior staff will try and act as a buffer between that and the organisation, however, the reality is that it will still flow through. A number of staff will watch council meetings, so they will see that. They will read things in the media or hear it on the radio and it does have an impact on staff who are in the chambers, either directly or indirectly, and that can flow on, not necessarily intentionally, but can flow on to their teams.
- And again, at a hypothetical high level, Thank vou. how would you deal with requests for councillors to speak to specific staff members about operational matters? What's your experience or protocol for dealing with those sort of requests?
- I'm choosing my words. I wouldn't - that wouldn't So, if a councillor had feedback about a particular operational area I would ask for that feedback; generally I would do that with the responsible director and then the director and I would then look at that, whether that was reasonable, fair, and then take whatever action. As the general manager I'm responsible for the management of the organisation and the staff, not the council.
- Q. Thank you. I was going to move on from those high level questions, Commissioner, unless you had any questions?

Can I just ask you a few questions about your appointment to the role. Do you recall who was on the recruitment panel who appointed you?

So, LG NSW were responsible for the recruitment.

Q. Did you know any of those panel members, and distinguish here if you want between knowing of someone and having any sort of personal interaction with them?

A. Not on a - what I would say a personal or friendship level. I knew of Mr May because he has been in local government a long time, but I did not know him. I knew John Rayner. I was employed at Sutherland Council back in 1987 as a childcare teacher and John Rayner was the shire clerk back then, but I was - at the time of my appointment I was based in a childcare centre at Minmi, but I did know John Rayner as I progressed within the council there. I left there in 1994 when I was a childrens services coordinator. The other two community representatives, no.

- Q. And, did you know of or did you know in a capacity Les McMahon before you applied for the job?
- A. I knew Les McMahon as the former general manager of Wollondilly. I have worked at Camden and Campbelltown Councils and both of those councils are part of the Macarthur. And in my role as manager I believe at Camden I met Les, but not he was not someone I would ring up and say, "How are you?"

THE COMMISSIONER: Q. These interactions with Mr Rayner and Mr McMahon are in the professional workplace capacity, are they not?

A. Yes.

THE COMMISSIONER: Thank you.

MR PARISH: I have no further questions at this stage, Commissioner.

THE COMMISSIONER: Q. Ms Miscamble, at this stage is there anything else that you wish to draw to my attention or place before me before we excuse you from your evidence? A. May I make a closing comment, if that's okay?

- Q. Yes, of course, yes.
- A. There has been a lot of interest with the inquiry and, coming in as a new general manager, my role has been to

look forward rather than necessarily look back and, if you wouldn't mind, I'd just like to make some comments?

Q. Yes, I think that's more than appropriate.

A. Just in closing I'd just like to say that there is a lot to do at Wingecarribee Shire Council and it represents

lot to do at Wingecarribee Shire Council and it rep a great challenge but also a great opportunity.

We're working to reset and rebuild our organisation and our relationship with the community and other key stakeholders. We're dealing with legacy issues and I want to make it clear that this is not about the current staff nor their performance; the legacy issues are about the decisions of the past that are having an impact now.

Thirdly, we're working to reset, stabilise and rebuild the organisation, recruit the right people with the right skills, aptitude and attitude required to take us forward and at the same time support our existing teams to move forward.

We're upgrading and implementing new systems such as the CRM to improve communication and customer service and we're augmenting the DA tracker, again, to improve the information and communication about development processes and progress, and we are focusing on the future moving from being a reactive to a proactive organisation with clear strategies for the future that position us to deliver and also take advantage of opportunities.

To do these three things is a challenge; it takes energy, persistence and time, and I'm very proud of the team at Wingecarribee Shire Council for their resilience and their commitment. The team do a great job and have done so through natural disasters, impacts of COVID, and working in a challenging council environment, great resilience and a firm commitment to do the best job they can in often very difficult times.

Our team work across a broad range of functions, from customer service, libraries, water and sewer, community services, IT, governance, facilities, assets, waste seven days a week across 24-hours a day. The operation staff do an incredible job in adverse conditions: acts of heroism in the bushfires and most recently the floods and the major storm event of last week. The planning and certification teams are working under immense pressure to clear the

22 23

 backlog as well as managing increases in applications.

We're working to change the culture and rebuild trust both internally as well as externally and build a sustainable and resilient organisation that is focused on outcomes and positioned to deliver on our community's needs, wants and aspirations.

We have a committed team and the new executive and I are working hard to rebuild the organisation and our relationship with the community and other key stakeholders. This is not a quick fix and it will take a number of years to stabilise and set the strong foundation. We have the roadmap and that will guide our actions.

In the next three years we will take a back-to-basics approach and focus on the fundamentals to ensure we've got a strong base upon which to build. The challenge is to move at a pace where we bring our team, almost 500 individuals and our community of over 50,000 residents along with us. Some say we're going too fast, others say we're going too slow: that said, there is genuine hope, optimism and goodwill to see us succeed.

I've appreciated the opportunity today and also to thank the public inquiry and the Commissioner on your approach and understanding in needing to reschedule due to ${\sf COVID}$. Thank you.

THE COMMISSIONER: That's quite all right, there's never a convenient time to get sick; Mr Broad is evidence of that today, so I hope he's watching along from home.

Mr Parish, did you have something?

MR PARISH: I did forget one question just on that last topic we were dealing with.

- Q. Did you have any personal relationship or did you have any knowledge of Nathaniel Smith before you applied for this job, other than the fact that you knew him as a member for the area?
- A. I didn't even know him as the member for Wollondilly.

MR PARISH: Well, we might strike that part out of the transcript. Thank you.

- THE COMMISSIONER: Yes, there's just a couple of 1 Q. things that I wouldn't mind taking up with you, perhaps I 2 3 should have done that before giving you the opportunity to But do you still have Exhibit M. the 4 raise any issues. 5 roadmap report? 6 Α. Yes. 7 Page 69, please. 8 Q. Α. Yes. 9 10 In the column on the left - feel free to refresh 11 yourself by looking at the whole page if you need - but the 12 last paragraph refers to the Strategic Asset Management 13 Plan; do you have that? 14 15 Α. Yes. 16 Just read that paragraph, if you wouldn't mind, and 17 let me know when you've done that? 18 19 Yes, would you like me to read it out? 20 No, no, just read it to yourself so you have it fresh 21 22 in your mind, you don't need to read it aloud. 23 Α. Yes. 24 25 That's part of the overall strategic planning framework that councils use: correct? 26 27
 - Α. That's correct.
 - Q. Do I take it, from the comments there in the last sentence, that there was no evidence of a review and confirmation of assumptions, that strategic plans including of this kind should be kept under constant review by the organisation?
 - Α. Yes.

30 31

32

33

34

35

41 42

45

- 36 What role, if any, does the governing body have in 37 that process?
- So, with the as I mentioned, we're currently 38 39 reviewing the asset management plan and with the strategic asset management plan it should be presented to the council 40 for their review and endorsement.
- 43 Q. And that applies to all strategic level plans, does it? 44
 - Α. That's correct.
- 47 Q. There was another reference which I'm just trying to

Perhaps, rather than keep you waiting while I try and turn up the page: when reviewing the strategic plans that were in place when you arrived, did that include having a look at how they'd been reviewed and their presentation to council over some time or were you, with your forward-looking approach, working out what you were going to do to take them forward?

A. That's correct, so just looked at the document, not the process to get to the end point and, again, looking forward.

Q. Yes, thank you. You referred earlier in your evidence to the listening sessions, I think 17, 12 of which have been completed; have I got that right?

A. That's correct.

- Q. Were they community, business, community groups or a mixture?
- A. The Executive Listening Tours, as we've called them, they're just general community, so they're open to anybody and generally individual residents. So, we actually have one again tonight, but just general.

Q. And, why is that a good idea, from your perspective?
A. I think it's good to hear from individual residents as well as community groups as well as special interest groups because not all community associations represent that community's interests, and the same of special interest groups, so it just helps round out the view. And I think it's important, (a) for the executive to hear from the community directly but also for the community to see and hear from the executive and understand a bit about us, about our experience and what we're hoping to achieve as well.

Q. And, is that part of the rebuilding engagement and trust?

40 A. That's correct.

- Q. Have there been any consistent themes or issues that have come out of the 12 so far, or tell me if you think it would jeopardise the remaining process for you to say so in this forum and we can do it another way?
- A. No, no, I'm happy to share. General feedback about roads, which is got unexpected given the weather we've had

as well; that's compounded. So, a bit about roads. Questions around development going forward and just understanding the process, who approves what, how that happens, how people can have a say, and I think that goes back to the 2021 feedback in the survey around governance and decision making.

An appreciation of actually holding them. At a number of the sessions a number of the participants have said "Thank you, thank you for coming out and talking with us", and, "We appreciate your time", and, "It's refreshing" has been a common comment, and other sort of themes around trees and weeds depending on location on properties. They're the general themes.

- Q. And any themes about their experiences with the organisation, either historically or recently that are coming out, or are they very much individual issues?

 A. As a general comment, just that they haven't felt that they've had that opportunity or that access previously, and that goes hand-in-hand with, "Thank you for making yourselves available".
- Q. Can I ask you some general questions, and given how clear you've been in your evidence about not looking to the past but looking forward, I'm going to take them out of this council and I want to draw on your experience more generally similarly to how Counsel Assisting did a moment ago and just explore with you the issue of trust between the governing body and the executive staff.

Is it important that there's mutual trust and respect between the governing body and the executive staff?

A. It's critical.

- Q. Why?
- A. Because you have to work together and respect each other's roles. It's not easy being a councillor: you're visible, you're accessible in the community, and you've often got to make difficult decisions which may or may not be popular decisions, so it's a difficult role.

For officers it's challenging too because we work within a myriad of legislation, there are requirements and also you want to make it as easy and as streamlined as you can as well whilst still doing everything you need to do to be compliant with whatever Act, and you need to satisfy the

But if there isn't mutual respect and mutual trust the relationship breaks down and then you end up in a situation where you're second-guessing; you find in the chamber there might be rescission motions or there might be a lot of notices of motion which then tie up the resources of the organisation and divert attention away. There can be uncertainty in decision-making, there can be confusion in the community.

As a council, the most effective way is to speak with one voice, once a decision is made speak with one voice and move forward; when that doesn't happen it undermines the council.

Q. Does that extend to that observation about mutual trust and respect about interactions between councillors and staff either at meetings or in other public forum?

A. Yes.

Q. And why is that important?

 A. Because, from the staff, side it's important that we listen to the councillors and their concerns and, you know, their ideas and take them seriously and respectfully and look at those opportunities. And, from the councillor's side, it's having respect for professional officers' advice and their expertise and their skill.

Q. And, if there are interactions in a public forum, be it council meetings or otherwise, between councillors and staff which demonstrate a lack of trust and respect, can that have a wider effect on the organisation, not just the staff themselves who might be involved?

Q. In what way?

Yes.

A. It can undermine the decision-making process, it can create uncertainty, it sets a tone: you know, you want a productive, healthy, safe, happy workplace and when relationships and interactions aren't respectful or trustworthy - you know, they don't demonstrate trust, again, that undermines that productive and happy culture. It maybe has the potential to limit the extent of advice that can be provided if staff feel that they're going to be criticised or torn apart for giving professional advice, it

 Α.

 Q. By that do you mean the environment prevents - or "prevents" may not be the right word - but leads to a situation where staff may not be comfortable in giving that frank and fearless advice which they're here to do?

A. It can limit that, yes.

- Q. If the situation you just described were to eventuate how would that, if at all, affect the overall functioning of the organisation?
- A. It can it diverts resources away from actually achieving what you need to achieve; it can make the organisation and council very insular and turn inward rather than outward; and, rather than focusing necessarily on the delivery of what the community is wanting or needing, it becomes more about how is this going to be taken, what might happen if I raise, and that's not the environment that you want, you need an environment where people feel confident and comfortable in giving that advice and having respect and trust.

Q. And I take it, if one follows that line through, that a council that turned insular and diverted resources away from service delivery and strategic planning to focus on itself would not be well-placed to meet its statutory obligations; is that a fair observation?

A. It makes it very difficult.

Q. Finally, I just wanted to - Mr Parish asked you some questions earlier about the number of claims, workers' compensation claims, I think they were; do you remember that passage of evidence?

A. Yes.

Q. I think, let me just find the page in your report where I think there are some statistics; I just want to make sure I'm understanding the data correctly. It's page 81. Do you have that?
A. Yes.

 Q. There are a number of graphs there, I just want to make sure I understand them correctly while I've got you here. The first on the left-hand column towards the bottom of the page, "Premium Performance"; so, does that graph indicate to the reader that the council's workers' compensation premium has increased, in fact it's almost

1 2 3	doubled between 17, 18 and 2021; is that how I read that graph? A. That's correct.
4 5 6 7	Q. There's a line that's a bluish colour on my copy with the acronym "CPM"; do you know what "CPM" means? A. I need to check that.
8 9 10 11 12 13	Q. That's fine, you can perhaps take that on notice and perhaps feed it back to Ms Hewson or Mr Broad. Then the next graph which is at the top of the right-hand column, this is categorising claims into - "business units" might not be the right word, but areas within the council; is that how I read that? A. That's correct.
16 17 18 19 20 21	Q. And the last graph gives a general description of the categories, whether they be impacts, falls, trips, body stressing or mental stress, then that's divided by not only the amounts incurred but the number of claims; is that right? A. That's correct.
23 24 25 26 27	Q. And the line is the number of claims, the bar is the value; is that how I read that? A. That's correct. So, the green line is the number of claims and then the bar shaded blue is the dollar value.
28 29 30	THE COMMISSIONER: Yes, thank you. Yes, I think that's all I have.
31 32 33	Mr Parish, do you have anything arising from my questions?
34 35 36 37	MR PARISH: Yes, thank you, Commissioner, just one question still on page 81.
38 39 40	Q. In the light blue there on the left-hand side, second paragraph down, it says:
11 12 13	As at 1 October there are approximately 40 vacancies.
14 15 16	Do you see that? A. Yes.
17	Q. Do you have any recollection off the top of your head

<THE WITNESS WITHDREW

THE COMMISSIONER: Mr Parish, what's next? I'm sorry, I see Councillor Nelson in the back. Do you have an application to make? No. He's given me the no signal. I'm sorry, I should have asked you before.

Mr Parish.

MR PARISH: I have two matters to deal with, Commissioner.

38 39

40

41 42

43

44 45

TURNOVER AND VACANCIES.

40 41

42 43 MR PARISH: The next document I tender is a letter from Ally Dench of the Office of Local Government dated 8 April 2022 and titled, "Supplementary submission to the Wingecarribee Share Council Public Inquiry".

44 45 46

47

THE COMMISSIONER: As I understand it, Mr Parish, that was provided in lieu of evidence that might have otherwise been

1	called orally; is that right?
2 3	MR PARISH: That's correct.
4 5 6 7	THE COMMISSIONER: And that's merely a submission on the law, is it not?
8 9	MR PARISH: That's correct, Commissioner, yes.
10	THE COMMISSIONER: The letter from Ms Dench dated - I'm
11 12	sorry, can you give me the that date again?
13 14	MR PARISH: 8 April 2022.
15 16	THE COMMISSIONER: 8 April 2022 will be Exhibit Y.
17	<exhibit #y="" -="" ally="" dench="" from="" letter="" local<="" of="" office="" td="" the=""></exhibit>
18	GOVERNMENT DATED 08/04/22 AND TITLED, "SUPPLEMENTARY
19	SUBMISSION TO THE WINGECARRIBEE SHARE COUNCIL PUBLIC
20	INQUIRY".
21	
22	MR PARISH: The next document I tender is the Community
23	Strategic Plan adopted June 2017.
24	
25	THE COMMISSIONER: Yes, the Community Strategic Plan
26	adopted June 2017 will be Exhibit Z.
27	EVILLET WE COMMUNITY OFFITEELD BLAN ABORTER HINE COAT
28	<pre><exhibit #z="" -="" 2017.<="" adopted="" community="" june="" plan="" pre="" strategic=""></exhibit></pre>
29 30	MR PARISH: The next document I tender is the development
31	applications timeline graphs which sets outs the total
32	applications against the average days.
33	apprioaciono agarnoc eno avorago aayo.
34	THE COMMISSIONER: Yes. Exhibit AA will be a summary of
35	development application timeline total applications
36	v average days.
37	G
38	<exhibit #aa="" -="" applications="" development="" of="" summary="" td="" timeline<=""></exhibit>
39	GRAPHS SETTING OUT THE TOTAL APPLICATIONS VERSUS AVERAGE
40	DAYS.
41	
42	MR PARISH: The next document I tender is the councillor
43	request summary which is in the form of a spreadsheet.
44	
45 46	THE COMMISSIONER: Yes. I think that's here, isn't it, in hard copy?

MR PARISH: Yes.

THE COMMISSIONER: Can I just have a copy of that? I think there's a direction I need to make about it. Exhibit BB will be a spreadsheet of a summary of councillor requests. I have seen that document, Mr Parish, it includes - it is a very, very large document and it includes personal information and identifying information of members of the public which ought not be, it seems to me, plastered all over the internet.

 What I propose then is, because the redaction process - and when it comes in I'll show you how big it is - would take days and days and days perhaps or many, many hours, is that I propose to make an order under section 12B of the Royal Commissions Act that Exhibit BB not be published, including by posting on the inquiry website, but that would not prevent you from, should you see the need to do so - yes, just hand it up, please - referring to what I'll call the summary of the issue.

I'm not sure that you will, but for those who may be seeing, it's an A3 document that runs to many hundreds of pages, multiple columns identifying individual identification features of members of the public, but it does include a "subject" column.

So my order under section 12B would prevent this being published in order to protect the privacy of those who are referred to in it, but should you need to refer to the subject of any particular request, Mr Parish, the intention of my order is not to prevent you from doing so, rather to protect the private information of those who are referred to in it.

Do you wish to be heard further on any of that?

MR PARISH: No, thank you, Commissioner.

 THE COMMISSIONER: So, Exhibit BB won't be made public, but for those who are interested they can understand why. Is this mine now? Great.

<EXHIBIT #BB - SPREADSHEET OF SUMMARY OF COUNCILLOR
REQUESTS.</pre>

THE COMMISSIONER: Yes, Mr Parish, what's next?

.28/04/2022 (15)

MR PARISH: The next document I tender, or at least notionally tender, are the various videos and audio files of council meetings.

THE COMMISSIONER: Yes, Exhibit CC will be a group of video and audio files of council meetings. They will be able to be placed on the website, I take it? At the very least, if there's some impediment there should be a list of the council meeting with a link to the YouTube page.

MR PARISH: Yes.

THE COMMISSIONER: So members of the public can follow the link should they have a desire to do so.

<EXHIBIT #CC - GROUP OF VIDEO AND AUDIO FILES OF COUNCIL
MEETINGS.</pre>

MR PARISH: The next document I tender is an email from suspended Councillor Ian Scandrett dated 14 April 2022.

THE COMMISSIONER: That's the email that he sent in response to a request by him and approved by me to provide some further information during his evidence; is that that email, Mr Parish?

MR PARISH: That's correct, Commissioner.

THE COMMISSIONER: Yes, Exhibit DD will be an email from Councillor Scandrett to the inquiry dated 14 April 2022.

<EXHIBIT #DD - EMAIL FROM SUSPENDED COUNCILLOR IAN
SCANDRETT TO THE INQUIRY DATED 14/05/22.</pre>

MR PARISH: The next document I tender is the 2012 Division of Local Government Promoting Better Practice Program Review Report.

THE COMMISSIONER: The 2012 Division of Local Government Promoting Better Practice Program Review Report will be Exhibit EE.

<EXHIBIT #EE - 2012 DIVISION OF LOCAL GOVERNMENT PROMOTING
BETTER PRACTICE PROGRAM REVIEW REPORT.</pre>

MR PARISH: The next document I tender is the Customer

1	Service Strategy 2016-2020.
2 3 4 5	THE COMMISSIONER: Exhibit FF will be the Customer Service Strategy 2016-2020.
6	<exhibit #ff="" -="" 2016-2020.<="" customer="" service="" strategy="" td=""></exhibit>
7 8 9 10	MR PARISH: The next document or documents I tender is the bundle of general manager briefing notes October 2020 onwards.
11 12 13 14 15	THE COMMISSIONER: Mr Parish, some of those will have personal and staffing information in them as I recollect; is that right?
16 17	MR PARISH: Yes.
18 19 20 21	THE COMMISSIONER: So, I think they should be a confidential exhibit for the moment and if there's a need for you to refer to them in your ultimate submissions then that can be dealt with then.
22 23	MR PARISH: Yes.
24 25 26 27 28 29 30 31 32	THE COMMISSIONER: You can make an application to me to vary that order, but I'll admit them as Exhibit GG, but given that they refer to, again, personal information of staff and staffing matters they should be made a Confidential Exhibit under section 12B of the Royal Commissions Act and not be published to anybody other than those assisting the inquiry.
33 34 35 36 37 38 39	If, Mr Parish, there's a reason that you need to refer to them in your submission, then there may be the need to vary that order so that those who are affected by the submission can inspect them, but for the moment I'll leave it at that and then you can make that application at the time.
40 41	<pre><confidential #gg="" -="" 2020="" briefing="" bundle="" exhibit="" general="" manager="" notes="" october="" of="" onwards.<="" pre=""></confidential></pre>
42 43 44 45	MR PARISH: Thank you, Commissioner. The next document I tender is the Ombudsman Report dated 23 March 2021.
46 47	THE COMMISSIONER: Remind me: this is separate to the small business Commissioner's report obviously; what's the

1 2	topic of this report?
3	MR PARISH: Let me come back to you on that.
5 6 7 8 9 10	THE COMMISSIONER: This is about the, if I recollect it correctly, the application - the term will be wrong, but my memory is there was an Ombudsman's report about the way councils dealt with certain fees paid by developers which came to the council just before the suspension, and again, was returned to council shortly after the appointment of the administrator?
12 13 14	MR PARISH: Yes, that's correct.
15 16 17	THE COMMISSIONER: That Ombudsman's Report dated 23 March 2021 will be Exhibit HH.
18 19	<exhibit #hh="" -="" 03="" 21.<="" 23="" dated="" ombudsman="" report="" td=""></exhibit>
20 21 22 23 24	MR PARISH: The next documents I tender, a bundle of correspondence between any suspended councillors or former councillors received by council from 1 January 2022 until 11 April 2022.
25 26 27	THE COMMISSIONER: That bundle of correspondence between suspended or former councillors and the council between 1 January 2022 and - what's the second date, sorry.
28 29 30	MR PARISH: 11 April 2022.
31 32	THE COMMISSIONER: 11 April 2022 will be Exhibit II.
33 34 35 36	<pre><exhibit #ii="" -="" 01="" 04="" 11="" 22="" 22.<="" any="" between="" bundle="" by="" correspondence="" council="" councillors="" former="" from="" of="" or="" pre="" received="" suspended="" until=""></exhibit></pre>
37 38 39	MR PARISH: The next documents I wish to tender are the bundle of correspondence from suspended Mayor Gair to the general manager regarding Station Street.
40 41 42 43	THE COMMISSIONER: Bundle of correspondence between Councillor Gair and the then general manager regarding Station Street will be Exhibit JJ.

you to refer to this in your ultimate submission to me or a suggestion that I should make any finding in relation to this or any other confidential exhibit there may be a need to vary that order so that those affected by the potential finding can review it, but you can make that application at the time.

MR PARISH: Thank you, Commissioner. The second confidential document I wish to tender is the spreadsheet of staff interviews conducted by Ms Miscamble which has various dates on it and which includes information both in respect of personal staffing matters, and also, it was done on the basis that it was confidential as well.

THE COMMISSIONER: Yes, I see. Is there a hard copy of that in the room?

MR PARISH: Yes, there is.

THE COMMISSIONER: If you just hand that up just so I can ... thank you. Yes, the document has a number of features which would identify those persons interviewed.

Mr Parish, what I would propose to do, and I'll tell you what I propose to do with it and then perhaps if you can liaise with the council to see whether this would address the confidentiality concerns, is that I propose to make an order under section 12B of the Royal Commissions Act that the exhibit as a whole not be published to anyone other than those assisting the inquiry, but cut out from that order any restriction on you from being able to refer to the comments made in it as long as those comments did not identify the particular person who gave it.

So, I think from Ms Miscamble's evidence some of the comments that appear here have in fact made their way into the roadmap report, so what I have in mind is that general observations and comments and feedback which can't be identified back to the person who gave it would be able to be referred to, but things that would identify the particular person would remain confidential in the same way that I said a moment ago to the extent there's a need to refer to them - those aspects in your final submission, then there may be a need to review the order.

Is that an appropriate way to proceed?

1 MR PA

THE COMMISSIONER:

THE COMMISSIONER:

MR PARISH:

MR PARISH: Yes, thank you, Commissioner.

Thank you.

 spreadsheet summary of the numerous interviews conducted by Ms Miscamble. Pursuant to section 12B of the Royal

the council promptly because, if there's a need to keep

more of it confidential, then I'll hear the application.

Commissions Act I direct that the Confidential Exhibit 2 not be published to anyone beyond those assisting the inquiry. That direction, however, does not prevent Counsel Assisting from referring to and quoting in his final submission comments or observations that are recorded in that spreadsheet, however, it does operate to prevent the publication of matters that would identify the person who made those observations to Ms Miscamble.

If you can make those enquiries with

Confidential Exhibit 2 will be a

Yes, that deals with Confidential Exhibit 2

<CONFIDENTIAL EXHIBIT #2 - SPREADSHEET SUMMARY OF INTERVIEWS CONDUCTED BY MS MISCAMBLE.</pre>

MR PARISH: Yes, that's all the tenders I wish to make, Commissioner.

THE COMMISSIONER: Yes, all right. In the event that it wasn't clear for those who may be watching, confidentiality orders have been made over certain exhibits to prevent personal and staffing matters which are not the focus of this inquiry from being revealed in the public domain; that's a normal function of inquiries of this kind and is indeed why the power exists.

To the extent that Counsel Assisting invites me to make a finding on any matter that is currently the subject of a confidentiality order, then he will be required to make an application to me to vary the order such that the relevant parts of the confidential exhibit can be made available to those who may be affected by the finding on which it is based.

Yes, I think that explains my position.

MR PARISH: Thank you, Commissioner. That was the first

of the two issues I wished to deal with today.

THE COMMISSIONER: Yes.

MR PARISH: The second issue relates to an email we received from suspended Mayor Gair on 27 April 2022 at 4.16pm. It was received into the public inquiry mailbox and attached to it what purported to be an anonymous WeChat or some sort of message that made certain allegations against - or in respect of procurement and the position of the general manager.

 I have dealt with some of those matters in terms of putting to the general manager what her position was. I haven't decided yet as to whether this document ought to be tendered but, in my submission, the next step would be to give the other person against whom matters are alleged in this message, being Viv May, an opportunity to address them in terms of what I would take to be standard procedural fairness and something which may assist the inquiry.

 THE COMMISSIONER: Yes, all right. Well, there's no - just because we rise here doesn't mean that documents can't be tendered in chambers - that's not an invitation to avalanche documents in but there's no reason why documents can't be received late.

How do you envisage Mr May being given an opportunity to respond?

MR PARISH: I think the most cost-effective and appropriate way to deal with it would be a witness statement provided in respect of the discrete matters.

THE COMMISSIONER: Yes. Which, should you decide to pursue it further, could be tendered with the exhibit: is that what you have in mind?

MR PARISH: That's what I have in mind, Commissioner.

 THE COMMISSIONER: Yes, all right. Obviously that should be done sooner rather than later. If there is to be a further tender of that and a statement, is that something that could be done by the end of next week?

MR PARISH: Yes, subject obviously to the fact that Mr Viv May has not been consulted as to his timetable as yet.

THE COMMISSIONER: Yes, quite.

apply to vary it if --

THE COMMISSIONER:

MR PARISH:

submissions and I am very anxious to get on with that process, I don't want it to be delayed, so if it can go along with my urging that, if something is to happen about it, it can happen by close of business next Thursday; that gives a week.

that this may well be news to him based on what you're

telling me, but given that I've made directions about

Perhaps you could make that order and he can

I won't make a direction about it given

MR PARISH: Thank you, Commissioner.

THE COMMISSIONER: All right, is there anything else from you?

MR PARISH: No, Commissioner.

THE COMMISSIONER: Just bear with me one moment, there's one thing that I wish to address.

Mr Parish, I'm just having a bit of a technical issue with my IT, but that's my machine, not anything else. Can you access the direction I made about submissions on your device and then I'll read it onto the record? It's on the inquiry web page but I just want to, for the benefit for those who are watching, read it out again in case they have missed it and then it will also be on the transcript.

MR PARISH: Order 1, Commissioner --

THE COMMISSIONER: Yes, I might do it, if Ms Hewson might bring it up. Thank you.

On the last day that we were here on 14 April I foreshadowed that I'd make some directions about written submissions and I did so early in the following week and they've been placed on the website. I think there's some benefit to me reading them onto the record for those who may be watching along now or for those who may go back to the transcript, so these are the directions I made on 19 April:

1. Counsel Assisting is to provide final written submissions by email to the inquiry email address by no later than 5pm on 9 May 2022.

2. Any suspended councillor, any former councillor of the 2016 term, the Wingecarribee Shire Council, the interim administrator or any other person who considers that they are directly affected by the terms of reference or any evidence given during the public hearings of the inquiry and who wishes to make final submissions, including any submissions that respond to those made by Counsel Assisting must provide that submission by email to the inquiry email address by no later than 5pm on 16 May 2022.

Counsel Assisting is to provide any submissions in reply to the submissions received in accordance with Direction 2 above by email to the inquiry email address by no later than 5pm on 23 May 2022. Any final written submissions provided in accordance with those directions must include references to the evidence by identifying particular exhibits and/or identifying the relevant pages of transcript on which reliance is to be placed. If, in making a final written submission, any person wishes to place any documents before the Commissioner that are not already in evidence, copies of those documents must be attached to that person's submission.

I have received some further submissions from either a former councillor or suspended councillor during the hearings and I propose to treat those as being in the category of final written submissions; that's not to say that those people can't provide further submissions in accordance with the directions I have made but I think that, given that they were given in that way during the hearings, the most appropriate course is to treat them as a form of final submission.

Those who are observing will see that there's a week between each of them. I've done it that way not only to ensure that the submissions are closed by late May, but also because I provided a lengthy lead-in period between when the hearings adjourned on 14 April and when both Counsel Assisting and any other persons' first round of submissions are due, being 9 May and 16 May. That contemplates the fact that, if someone wants to make a final submission to me, they should not be waiting to receive Counsel Assisting's submission, that work should be

undertaken and, in the absence of exceptional circumstances, it should not be assumed that I will grant an extension of time or consider submissions that are received otherwise in accordance with the timetable.

There was an approach to submissions in the advance of the hearings that they would be received late, indeed up until the commencement of the hearings, but the evidence is in, the submissions need to get on and the report needs to be prepared, so any person who wishes to make a submission should treat those dates as being as I've directed the dates that they must be submitted and if there is some reason why that can't be done an application will need to be made but, in the absence of exceptional circumstances, it should not be assumed that an extension will be given.

Mr Parish, do you wish to say anything further at this stage?

MR PARISH: No, Commissioner.

THE COMMISSIONER: All right, I repeat the various thanks that I gave on 14 April, again, thanks to the council and the staff who have assisted us in being able to do this today at, no doubt, some inconvenience to them and the organisation.

I am very much appreciated to you, Mr Parish, again for your assistance and to those assisting the inquiry, Ms Hewson who is here, Mr Broad who is probably watching from home, hopefully he is on the mend.

That completes the hearings and, as I said earlier on the 14th, it's my intention to issue the report as promptly as I can, but for those who have been keen observers they will realise that there is a rather large amount of material to get through, so I'll do it as soon as I can but I can't tell you when that will be at the moment.

I'll adjourn, thank you.

AT 2.46PM THE INQUIRY WAS CONCLUDED
