WINGECARRIBEE SHIRE COUNCIL PUBLIC INQUIRY

At Wingecarribee Shire Council Chambers, Civic Centre, Elizabeth Street, Moss Vale, NSW 2577

Before: Mr Ross Glover (Commissioner)

Mr David Parish (Counsel Assisting)
Mr Angus Broad (Officer Assisting)
Ms Bron Hewson (Officer Assisting)

On Tuesday, 5 April 2022 at 10.05am

(Day 7)

1 2 3	THE COMMISSIONER: Yes, thank you, we'll resume. Mr Parish, what's happening today, other than Mr May?
4 5	MR PARISH: There will be no further witnesses today other than Mr May.
6 7 8 9	THE COMMISSIONER: Okay, thank you. Is there anything else I need to deal with before we start?
10 11 12	MR PARISH: No. I should just foreshadow, one of the first things I'll be doing is tendering Mr May's submission to the inquiry.
13 14 15	THE COMMISSIONER: I see.
16 17 18	MR PARISH: I shall establish the provenance in the usual way and tender it at that stage.
19 20 21	THE COMMISSIONER: Yes, I think it's already in the public domain anyway, so that seems an appropriate course.
22 23	MR PARISH: Yes.
24 25 26	THE COMMISSIONER: Yes, you proceed. MR PARISH: Thank you. I call Mr Viv May as the next
27 28 29	witness. <viv [10.06am]<="" may,="" sworn:="" td=""></viv>
30 31 32	THE COMMISSIONER: Thank you, Mr May. Mr Parish.
33 34	<examination by="" mr="" parish:<="" td=""></examination>
35 36 37 38 39 40	MR PARISH: Q. Thank you, Mr May, could we please start with your vocational experience and how you came to be the interim administrator of the Wingecarribee Shire Council? A. Would you just like me to go through a little bit about what I've done and where I've been?
40 41 42	MR PARISH: Yes.
43 44	THE COMMISSIONER: Yes, please, thank you.
45 46 47	THE WITNESS: Look, I started my local Government career in Mosman in 1970 and left Mosman in 2013. I started, in effect, actually in those days as a junior assistant

cashier rates clerk on the front counter and I worked my way through. I was appointed town clerk in 1986 and then, when they had the new Local Government Act in 1993 I had to re-apply for the position and I was appointed general manager and I held that role until 2013 when I retired.

I then did some consultancy work for a consultancy firm, LKS Quaero, I did quite a bit of work on Fit for the Future for the government in 2015, mainly around Canberra and down in Deniliquin and on the Murray River, and I retired again.

 In early 2016 I was asked whether I'd be interested in acting as the general manager at Strathfield Council for a short time. The OLG had done a section 430 report on the council and there were many issues, only there for about a week or two, then the government asked me if I'd be interested in going to Auburn Council as the interim administrator, and I think everybody knows about Auburn, headliner day. I was there from February 16 until May 16, and then that was merged with Cumberland - I'm sorry, with Parramatta and Holroyd. It was about 75 per cent of Auburn, 25 per cent of Parramatta, and 95 per cent of Holroyd, so it wasn't a simple bolt together, it was a mixture of councils; most of them were bolt-togethers, that was quite a challenge, and I was there until September 17.

While I was there I was also asked by the government whether I would take on Georges River Council for about a month, the administrator had a commitment to go overseas, so I was doing them both for a short time.

Then I retired again and in June 2020 I was asked whether I'd be interested in going up to Armidale Regional Council as the interim administrator and I was there for six months. Then, in March last year, I was asked whether I would be interested in coming to Wingecarribee, and I'm still here.

Just for full disclosure, I'd just like to advise you, Commissioner, that I'm also the Local Government Remuneration Tribunal; that's a statutory appointment.

 Q. And, upon being appointed interim administrator here, I take it one of your first roles was to gather information and assess what the position of the council was and what you could do going forward; is that about right?

 A. Yes. Look, I had an indication that I'd potentially be coming. Obviously, they sound people out when they get to this situation, and I had the opportunity of doing a bit of homework and viewing a couple of previous meetings, and when I arrived I had an idea, having done it before, of the kind of things I wanted to look at.

- Q. I'll be taking you to some of the reports you commissioned in due course, but to start from the time that you physically turned up here for the first time, what was the process of information gathering that you went through? Was it staff interviews, I assume?
- A. Well, look, when I arrived I think I got appointed on the Friday and I turned up on the Monday.
- Q. Yes.
- A. And I'd spoken to the acting general manager and said, "I would like to speak to the executive staff", I think it was at 10 o'clock, not in the mayor's room but in a councillor room if there was one available, and that was all arranged and I went through some processes such as, I just wanted to make sure that, if there were laptops or anything like that that the councillors had, they were returned and they were secure. Having been through the Auburn Public Inquiry I thought that it was pretty important and, you know, cars you know, just run-of-the-mill things which the acting general manager had under control but I just wanted to confirm because at the end of the day I was responsible. So, there was that.

Then I indicated to the staff that I knew I was coming for a while and that I'd done a bit of homework and this was an opportunity for them, if they wanted to get anything off their chest either in that group or confidentially, now was the opportunity; I didn't like being misled or getting surprises and this was an opportunity for them. Nothing much came out of that.

Then I went through the processes that I would be following and that was basically some due diligence on finance, governance issues, and that I wanted to establish pretty quickly, because I saw through watching meetings that development was a huge issue, a panel, and in effect, we started work - or they started work.

I then asked the acting general manager whether he could call an extraordinary meeting - it was either 16 or

17 March - where I just wanted to indicate to the community what my role was, that I wasn't the general manager because in my view there was a lot of confusion in this place about general manager, executive staff, mayor and councillor and I wanted to make that very clear to the community.

Also, unbeknown to the executive staff, it was my intention to replace the acting general manager immediately and behind the scenes I had been talking to a couple of people and I settled on Mr McMahon because he was from, in effect, the Highlands and knew the area. So, that's what happened.

We then had the meeting on the 16th or the 17th. The staff had no idea that I was intending to remove the general manager, but as is my modus of operation, I pay respect to everybody; I advised the acting general manager about an hour before the meeting that he would be replaced.

Q. Was that Mr Burgess at that time?

- Q. And he'd been in that role for a relatively short
- A. Yeah, about a week I think.

amount of time, was it?

Q. And, after that, Mr Les McMahon came on board?

Yeah, Mr McMahon came on the Monday.

Α.

Α.

Yes.

Q. Do I understand it that at or about this time you also

had interviews with the suspended councillors?

A. Yes, I spoke to the mayor first, then I spoke to all of the suspended councillors and the two recently resigned ones. I didn't speak to the councillor who had resigned due to ill-health; I had intentions of it but - well, quite frankly never got around to it, and I was told he wasn't well, so I kind of moved on.

Look, when I arrived at this place I was overwhelmed; it was like, you know, drinking from a fire hydrant, everyone wanted to talk to me, there was just so many issues, but I wanted to pay respect to the mayor and the suspended councillors of getting, in effect, their side of the story and I think some people were a little bit frustrated that I wasn't speaking to some residents straight away, because there were some outstanding issues that needed to be addressed, but I wanted to send a clear

6

7

9

10

11 12

13

1 2

> Can I preface my next question by saying, if there was any understanding of confidentiality or explicit assurances of confidentiality, let me know, but can you tell me about your impressions or any specific matters which came out of your interviews with the councillors and the mavor? I obviously watched the final two meetings, and this was a council in crisis, and that wasn't only at the governing body level, I believe it was at the administrative level as well, particularly the executive staff.

14 15 16

17

18 19

20

21

22

I then, after having spoken to the councillors - to me there didn't seem to be any acceptance on the part of the majority that they were part of the problem and I found that difficult, and at the end of the day I came to the conclusion, the place is a debacle. There was no formal From talking to councillors, it appeared to me structure. that some councillors were getting more information than others from the executive staff.

23 24 25

26 27

28 29

30 31

32

33

34

35

36

37

I could not believe the amount of briefings and workshops that were being held, and some councillors were raising concerns about leaking of information and confidentiality and that type of stuff and, you know, I was concerned about those matters but at the same time, and I'm not a lawyer, but I have some difficulty with understanding how through a workshop or a briefing, if you release stuff, how do you keep it confidential? I think the council's Code of Meeting Practice was amended but it wasn't a mandatory condition and, you know, I used to think to myself in the early days, well, you know, don't we use - to me, it serves you right, you're not doing this properly, there's just too much secret stuff going on here. And I think, to the community, the council was a mystery.

38 39 40

41

42 43

- Can I go back a step: you referred to the insight or acceptance of the majority as to how their behaviour might have been affecting, who do you mean by the majority or how do you define or demarcate majority from the majority minority?
- 44 45

46 47

Well, the group that appeared to support the mayor and, you know, the mayor actually said to me that - and Councillor McLaughlin said to me, that I should be

> 8 9

10

11 12

13

- There's something which I had Can I just pause there. some discourse with the Commissioner on in the opening about whether the Minister has any power to dismiss or suspend individual councillors. Are you aware of any powers that exist for a Minister?
- I don't believe there are any; I think it's one gone, all gone/suspended: that's my understanding, but I'm not a lawyer.

14 15 16

17

18 19

20

21

22 23

- THE COMMISSIONER: Q. Was it suggested to you in those discussions with the councillors that the Minister should have taken that sort of action against particular councillors rather than the whole of the body? Oh, yes, yes, by a number of the councillors, and I
- told them, you know, that's really a matter they should take up with the Minister's office, that I'd been appointed as the interim administrator, but I could not see how that could happen, could occur.

24 25 26

27

28

29

30 31

- While we're on this topic and I may be jumping ahead, but it's been suggested to me in a number of ways that this was a problem caused by two, perhaps three, councillors; what do you say to that view?
- I don't agree with that. I think that look, the Minister, when she suspended - and I talk about Minister Hancock --

32 33 34

Yes, I understand. Q.

35 36 37

38

39

40

41

42

-- the Minister when she suspended the councillors, in my view she had no option other than to suspend them all, and my observations of meetings, and having spoken to councillors and having read the Performance Improvement Order, they'd had a chance to improve and I could never understand why some of the councillors were, in effect, attacking OLG and the Minister when the Minister had given them a chance to improve and considerable amounts of money had been spent on trying to get the council to improve.

43 44 45

46 47

But having been here, say a month, I then began to realise that the blame for what the debacle that I thought the council was just didn't totally rest with the

THE COMMISSIONER: I'll let Mr Parish explore those issues with you, thank you.

MR PARISH: Q. You referred there to the concept of some blame lying with the OLG or the Minister; was that a theme which came out of the interviews you had with the councillors at that stage?

A. Yes, particularly the mayor.

- Q. Was there a view held by the mayor or any of the other councillors that there was an element of a political stitch up in the suspension of the council?
- A. That wasn't raised with me. Some of the councillors did raise what they considered to be interference by local members, and I think I indicated to those councillors that those members are listening to the community they represent, and in any event, local government is a creation of the state, the local members are doing their job, but the Minister is the one who has suspended the council, not the local members.

Q. In your view did they also portray a lack of insight into how the behaviour in those meetings that you viewed came across both to the community and perhaps to any reasonable person watching the behaviour in those meetings?

A. Oh, definitely; this was a very, very bad example of good local government.

Q. Can I pick up on the topic that you raised about the use of confidential information or confidentiality in briefings; can you just expand a bit on that and give me some examples of what you saw as inappropriate or just bad process in that regard?

A. Look, the release of confidential information, I don't have any specifics in relation to that because that hasn't been my arena. I was just interested in the whinging of councillors that, you know, some councillors are allegedly leaking this information, and particularly in relation to Station Street.

Station Street, you know, no wonder the community - and another thing I was being told, it was only a handful of people who were causing all this disruption: well, that's just clearly wrong. Hundreds of people when I went on my little journeys out into the villages wanted to see

And, you know, still today - and this has never happened where I've been ever before, including Mosman - you know, I'll be out in a shopping centre or something like that, people come up to me and say, "Thank you". The place was a debacle and the community had had enough.

Q. Do I understand that you also met with state and federal members at around this time?

A. Yes.

 Q. Again, prefacing my question with any confidential information or assurances of confidentiality, are you able to tell us about your dialogue with those state and federal members and what their impressions were?

A. Yes. The state members - I reside in Sydney and Parliament was sitting, it was easier for me just to go into Parliament House. I met with Tuckerman and Smith in Parliament House for about half an hour, and they expressed to me their disappointment in the council, and we didn't really discuss any specifics. They indicated to me, you know, "Look, can you just try and get public confidence back into the council?"

I met with Mr Jones, member for Whitlam, down in Both federal members had really - I wouldn't Shellharbour. say "lost interest" is the right word, but had had enough of the council and, you know, Mr Taylor actually said to me, "Can you try and work out what's happened with the Berrima bypass because I can't and no-one can tell me", and I looked at that and that's just another problem. our discussions we didn't discuss anything specific, it was just generally, you know, can you please restore - well really, the view was from the four of them, "Thank goodness the Minister's taken a stand, can you just get on with it and try and restore public confidence because the council's failures are affecting the community" and, more importantly, the community's ability to get grants through state, because the State is losing confidence in them too, their inability to deliver.

THE COMMISSIONER: Q. Do I take it that the observations from those members, both state and federal, was an

1 2 3	opportunity for them to reflect to you the views of their electorates? A. Yes.
4 5 6 7 8 9	Q. Thank you. A. Look, there was a press release issued the other day, and I don't know whether you've seen it, by five of the councillors and, you know, that press release criticises the - in effect, the Minister, OLG, members and myself. All we're guilty of is listening, which they weren't.
11 12	THE COMMISSIONER: Thank you.
13 14 15	MR PARISH: Q. I'm just working off for now your, I think, first report to Minister Hancock on 10 May 2021.
16 17 18	THE COMMISSIONER: Should Mr May have that?
19 20	MR PARISH: Yes, that will be helpful.
21 22 23	THE COMMISSIONER: If Mr May could have Exhibit B, page 239. Mr Parish, do you need mine?
24 25	MR PARISH: I've got a version.
26 27	THE COMMISSIONER: You've got a version, all right.
28 29	MR PARISH: Something's gone wrong in the witness copy.
30 31 32	Q. Hopefully you've got the 10 May 2021 report in front of you? A. Yes.
33 34 35 36	Q. In a slightly shrunken form. You refer in this report to commissioning a number of reports, which I don't think you had any of those in by this point in time. By this
37 38 39	point in time, however, you had already formed the view that there was much to be done to restore the community's confidence in the council, and that the elected body and
40 41 42	former executive of the council had shown a complete disregard for the community they were elected and employed to serve.
43 44	Bearing in mind you hadn't obtained the reports
45 46 47	THE COMMISSIONER: I'm sorry, Mr Parish, I think you may be at cross-purposes. If you go to the paragraph above

1

MR PARISH: I think that's right, pardon me.

5 6

7

8

9 10

11 12

13

14 15

16 17

18 19

- I think you'd received one or two of the reports, but a bunch came in in June, from memory. What had led you to that conclusion at this stage, around 10 May 2021, of the lack of community confidence, the complete disregard for the community?
- The initial reports that I commissioned were really due diligence matters relating to finance, because finance is an issue and up at Armidale it was a massive issue, I don't think it's an issue here, even though I do think, through the ARIC, the general manager and the staff are sorting a number of issues out of how they, in effect, play with - well, they used to - play with reserves. And the governance one was a due diligence, so that just showed what hadn't happened, but basically at the end of the day they weren't too bad, those reports.

20 21 22

23

24 25

26 27

28 29

30 31

32

33

34

35

What drew me to my conclusion was talking to residents and, you know, I well remember the first formal meeting the council had, had to deal with the question of the Bowral Memorial Hall, and a lady came and addressed council and I thought to myself, "You seem very sensible, I'll meet with you". By that stage I think there was a lot more confidence building lower, at the level three of the council, that I could be trusted and I had a rough idea of what I was doing. And a couple of members of staff came to see me and said, look - these are my words, not theirs, "The council is just being bloody-minded in this, we have a solution". And I met with some users of that facility, I met with the staff, I made no promises to the residents because I wanted to talk to the staff again, and it was sorted out in one meeting.

36 37 38

39

40

41

42 43

44

45

46 47

It had gone on in the council for ages because it seemed to me they had an attitude, "We can, so we will", and that's no way to treat ratepayers. You then move on to DA matters, which I just found overwhelming and, I'm no planner and I'd already moved to put in a panel, but some of what I was being told, they're operational matters, so, you know, I got out as quick as I could. And I engaged with Mr McMahon, Malcolm Ryan, and I think at the end of the day he saw about 67 people who, you know, I made it very clear in the minute I brought down that we weren't

Q. Were you getting any feedback at this time specifically about conduct in meetings either between councillors or in the way that councillors interacted with members of the public, either at council meetings or at things like the bushfire community meetings which we've had some evidence on that already or other committee meetings? A. Look, when it comes to council meetings I wouldn't say I shut down discussion with residents, but I've seen the meetings too, so in effect I just acknowledged the fact that it just wasn't acceptable behaviour from the governing body and we moved on. When it comes to the bushfires, well, that's just another chapter.

Q. We might come to that soon, but for now at least my question, and perhaps you've answered it is, you were getting feedback from the community about the behaviour of the councillors at meetings?

A. Oh, yes, and not from a handful of people.

Q. Could I just ask about the decision of the implementation of the local planning panel.

THE COMMISSIONER: Sorry, before you do, Mr Parish, before you move on, sorry to interrupt.

Q. Mr May, do you still have page 239 in front of you? A. Yes.

Q. Seeing as, I think Mr Parish is moving on, there was one issue I wanted to explore with you. In the last paragraph on that page you say, third line:

A lack of respect, transparency and communication has led to constant suspicion of decision-making processes ...

Do you see that? Yes.

Q. What led you to express that view?

Α.

16 17

1

2 3

4 5

6

7

8 9

10

11

12

As part of that answer, I think I understood you to be talking about councillors crossing into the operational divide; is that what you have in mind? Oh, yes.

18 19 20

21

22 23

24

25

26

27

28 29

30 31

And have you received reports of that sort of thing happening?

Early on, and I did this in - look, I understand the difference between operational and the governing body, and I think a lot of people used to think I was very black and white in those areas, particularly at Mosman, but I didn't allow councillors to cross the line. And here there was a blurring and I think that was facilitated by the general manager, because the general manager didn't stop it. you know, you have the example of a mayor wanting to tell staff - and the unions raised this with me, because I met with them - in how to fill potholes, and it's allowed by the general manager? You know, that's just not on.

32 33 34

35

36

37 38

39

40

41

42 43

44

45

46 47

In that minute I did indicate that, if staff wanted to come and talk to me, they could. After about three or four came I thought to myself, you don't want to get too wrapped up in this, refer them to the general manager, and I did, but I did speak to some - a couple of former staff who I put into the general manager too, because also what was happening is, when staff were leaving they were getting forced to sign confidentiality agreements, and I don't know how many there were, maybe two people came to see me about that, but I got out of it and left it to Mr McMahon, but I did say to Mr McMahon, "I would suggest you release them from their confidentiality agreements and, if it needs a council resolution, you'll have no problem from me, it might be the only way you get to the truth".

8 9 10

11 12 13

22 23

24

30 31

32

33

29

38

39

40 41 42

43

44 45 46

47

These were staff who left for all sorts of reasons? Q.

Α. All sorts of reasons.

- Is that something that you'd seen in other councils in your experience, outside of perhaps contentious departures, if I could put it that way?
- I hadn't seen that at this level, no. And I must sav that the people who left since I've been here and Liz has been here, no-one's been asked to sign a confidentiality agreement.
- Thank you. Why is, in your view, the divide between councillors and governance and strategic and the operational side of the organisation an important one to have maintained?
- Well, look, I deal with this in the final report to the Minister and in my submission to you, Commissioner. don't think that councillors as a governing body understand just how powerful they are if they use their positions properly and get into strategic areas.

This council, it appears to me - particularly in land use planning, which is bread and butter for a councillor they lost their focus on the big picture, more interested in the smaller individual DA. Well, in my view there's no role for a councillor in that arena. What the councillors' got to do, they've got to put in place their vision for the future of the community they represent and then leave it to the professionals to get on with it.

Now, if the professionals don't adhere to the council's policies and procedures, well, you hold the general manager accountable for that, but you can't be sending mixed messages. When I suggested a panel, or I said I was going to introduce a panel at my first meeting, I had a bit of a lukewarm reception to that from some staff; I just had the feeling, I have no proof, I just had the feeling that they thought they were going to lose some control in that arena, and the reality is that they lost total control.

- Do I take it from that answer that councillors spending time in council meetings on individual DAs with specific features, you don't see as a good use of civic time?
- Not at all. And I think it would be more

1 2

3 4

> And that's that suspicion of decision-making you were referring to in your report to the Minister, is it? Yes. Α.

9 10

11 12

13

14

8

- What about consistency in decision-making on individual DAs?
- Well, that was part of the concern by residents here, that some people got it, other people didn't. And, as I say, I exited from that space --

15 16 17

Q. I understand.

Α.

18 19 20

21

- -- because I had enough on my plate already. Before I hand back to Mr Parish, still on page 239 if
- you have that in front of you, after that passage that I've just drawn to your attention, you go on to say:

22 23 24

... there is much evidence that the Council had simply stopped listening.

25 26 27

What did you mean by, "the council had simply stopped listening"? Were there any particular examples that come to mind?

33

34

35

36

37

38

39

40 41

28

Well, in relation to the land use planning space, I'm Α. not sure, but I have some views on that. But my examples of stop listening: Station Street, Mittagong Playhouse, Bowral Memorial Hall, the use by the community of council-owned facilities generally, they're some examples, and even the Welby tip issue which you probably haven't even heard of, it's a massive issue down there but council has said it's too hard. Since I've been here there's been a report come to council because they asked for it, because the community asked me, the residents down there. view, the council wasn't undertaking one of its primary roles as councillor to represent the community; they were representing individuals rather than the community.

42 43

> THE COMMISSIONER: Yes, thank you. Mr Parish.

44 45 46

47

MR PARISH: Can I just turn you over the page and Q. that starts:

8 9 10

.05/04/2022 (7)

The Wingecarribee Shire community has lost trust in their elected representatives and a lack of leadership in the governing body and executive staff has severely impacted on the health and safety of many staff.

I think we've covered your impressions of how you came to them in respect of the loss of trust and lack of leadership, but can we just turn to the impact on staff. Council has an obligation to be a responsible employer and provide a consultative and supportive working environment for the staff, can you tell me about how the governing body interacts with that obligation? Is it the governing body's job to direct and control how the general manager controls his or her staff, or ought they be more proactive in ensuring the health and safety of --

Well, the only person the governing body employs at the end of the day is the general manager, and I believe at the end of the day it's the general manager's responsibility to look after the welfare of the staff. from recollection, and I've never looked further into this, but from recollection the mayor in the second interview I had with him - because he asked me, I've met with him three times - indicated to me that the former general manager had a claim in against the council.

Now, I've never looked further at that because I was trying to go forward, I was a bit sick of going back all I think in my own mind I'd proved what I wanted to prove to myself to try and take the place forward. So, no, there's a clear responsibility, but in saying that, the general manager has to be firm with councillors. You know. if you're all things to all people, it'll turn to custard; you've just got to be firm but you've just got to, what one gets, all get. And, if you allow one person to, you know, overstep the mark, how can you stop the rest of them?

THE COMMISSIONER: Q. What about the impact of councillor behaviour, whether in meetings or in interacting Can that have an effect on whether the with staff? workplace is consultative and supportive?

Well, in my view the staff here were badly let down by the executive staff for, in a way, facilitating some of the behaviour.

Q. Yes, I appreciate that, but do you think the A. Oh, most definitely, yes, yeah, that's very clear and --

Q. So, councillors - appreciating the important role that the general manager has to play, do the councillors themselves nevertheless have their own obligation not to transgress their role into the operational space? Do you agree with that?

A. Yes.

THE COMMISSIONER: Yes, Mr Parish.

who want to push the limits.

 MR PARISH: Q. Did you have any specific examples at the time of writing this report of impacts on staff in a health and safety respect caused by lack of leadership of the governing body and executive staff?

I am of the opinion that, by virtue of what was happening at the top, the culture just filtered through. had staff come and speak to me - not many, but when I kind of opened the door to start with it - about being embarrassed to work for the council, and there was one lady who spoke to me about a pop-up that the council had somewhere in Bowral about an environmental issue one Saturday morning and a councillor turned up and took over. You know, I said to her, "Well, at Mosman the instruction would have been, if a councillor turns up respectfully ask If they don't, just pack up and go yourself, them to go. the councillor is the one who will be embarrassed at the end of the day". I must say, it didn't happen at Mosman because we had clear rules and guidelines. That doesn't mean it was easy because you will always get councillors

Q. Do you recall who that councillor was and broadly when it was, that event?

A. No, and the person concerned didn't tell me the councillor because I said I wasn't interested. Look, since I've been here I have been in overdrive to make sure I talk about the elected body or the governing body, not individuals, and the executive staff not individuals.

 Q. You've touched a few times now on the appropriate and effective communication between councillors and the executive level of staff. Can I ask you a two-part question: firstly, what in your experience the most

effective way of having a policy on that is and, secondly, whether such a policy or guideline existed in this council when you became the interim administrator?

Well, it existed but whether it was enforced: you've got to have it under the Code of Conduct. But look, it's about respect, it's about consistency, and at the end of the day, if you treat everybody the same, whether it be an elected member or a councillor, they'll all respect you; and, they mightn't like you, that's not what you're here It wasn't consistent.

3

4

5 6

7

8

9

Can you explain to the inquiry what the proper chain of command or siloing of the communications that councillors should be having with staff is? Is it a matter of, councillors ought to talk to certain members of the senior executive and then the senior executive interacts with individual staff members, or is it appropriate that councillors talk directly to staff members? No, no, no. No, the process is that the general manager, in effect, issues instructions about who It's my understanding here that councillors can talk to. it was two Level 3 group managers, but I had a bit of difficulty understanding the organisational structure here and I generally only spoke to the acting general managers and now the general manager, but from my position I'm now talking to the directors here until the organisation structure is sorted out and I do my best to try and stay away - because I say to residents, "Look, they're

operational matters" and it's amazing. If you explain to a

resident why, they accept it, you know. I suppose I'm not

31 32 33

34

35

36

37

38 39 THE COMMISSIONER: Q. Yes, that highlights a question I had which I may as well ask now, which is that, the obligation of a councillor is not - well, tell me if you agree with this: is it the obligation of a councillor to take up any and every issue that a resident may raise, or does the councillor have an obligation in accordance with their duties under the Act to exercise discretion in accordance with their role?

40 41 42

43

44

45

46 47

The latter, the councillor has to - but look, the Α. other hat I wear is the Remuneration Tribunal, you know, the submissions to sittings of the tribunal, a lot relate to the full-time role of the councillor. A councillor role is not a full-time role, and then I try to explain to people that, used properly, it is a very powerful role. you use the community planning processes you can leave your

chasing a vote.

stamp on a community, on a shire, but if you just want to 1 2 become involved in, you know, grass cutting, you'll come 3 and go.

THE COMMISSIONER:

39 40 41

42 43

MR PARISH: Do you have any other specific examples Q. that at least at this stage you were left with in respect of how staff were being impacted by the lack of leadership and a loss of trust in the governing body?

Yes, thank you.

Well, specifically in matters I became involved in, Station Street which was a huge issue; the fires, another huge issue; and smaller but just as relevant, really Mittagong Pool, for instance. You know, I've taken the time to read the flood reports - the flood studies on the pool and I don't think the councils followed the recommendations or the suggestions in those studies in relation to improving that pool.

I have kind of - that's out for public consultation at the moment, you know, but I've asked through the general manager whether that can be addressed; it's just those types of things that, to me, you know, the staff know but the staff have been squashed, and I think to a high degree as a result of the executive staff wanting to appease councillors.

- Can I just end on the topic of health and safety of staff, at least your impressions as at 10 May 2021. You describe it as a toxic culture at about the second paragraph from the end. Can you elaborate on what you meant by "toxic culture" and how you came to that impression, subject to the fact you've discussed it at some length already?
- I think, in relation to individuals, that's probably a question better addressed to the general manager, but I am aware that the council's workers' compensation premiums have gone up considerably by virtue of claims that aren't what you'd call normal run-of-the-mill claims.

Additionally, you know, the council staff thought that their professionalism was not being respected, and that builds a culture - I'm not saying in every part of the council, because to be quite frank, I've only ever been behind into the workplace once since I've been here because that's just not my role. And the culture here had to change and someone had to initiate that change through

leadership and that's what I've been trying to do. Sometimes you get criticised for not taking an interest, but I am very interested, but knowing the constraints on the role.

4 5 6

7

1 2

3

MR PARISH: Commissioner, I'm going to turn to the next report dated 10 August 2021, unless you have any further questions about that first report?

8 9

> THE COMMISSIONER: Yes, just one.

10 11 12

Q. If you have page 240? Yes.

13 14

15

16 17

About halfway, a little above halfway up the page there's a paragraph starting, "Suspended councillors", do you have that?

Α. Yes.

Α.

18 19 20

Q. The second sentence:

21 22 23

24 25

26

Clearly their behaviour has been dysfunctional, and coalitions of convenience have been formed and together with the former executive were an embarrassment to and a poor example of good local government.

27 28 29

30

31

32 33

34

35

36

37

What did you mean by "coalitions of convenience"? Councillors will play games to get numbers for Α. specific issues, and that's what happens. I am probably the worst example I can say of this in relation to the housing strategy. I thought it was very, very professionally done. I took the time to go out with officers and look at what they were proposing, but apparently when it got into the political arena there were deals or coalitions of convenience to take areas out, put areas in. That's a high level.

38 39 40

41 42

43

44

45

46 47

But coalitions of convenience do happen in councils, but let's be open and honest about it and transparent. You know, I think to a degree the numbers apparently on Station Street changed, you know, hot in the kitchen, there's there's always coalitions, but you - you know, people trade votes for mayoralty, for deputy mayor, that's just a reality of democracy, but the coalitions of convenience here I think took it to another level.

8 9

10 11

12

13

14 15 16

17 18 19

20 21

22 23 24

> 25 26 27

> > 28 29

30 31 32

33

34

35 36 37

- By that do you mean that the coalitions of convenience were more political and less about the role of a councillor and the governing body as described in the Act? what you mean?
- Totally political.

THE COMMISSIONER: Thank you.

MR PARISH: I might just take you to that first Q. sentence before we switch to the next report. 10 May 2021 you'd formed the view that the suspended councillors, in your view, did not warrant return to council office and should they so desire they can present for re-election.

Turning to the next report, 10 August 2021, had your view changed by that stage at a high level? We'll go into the details of the report --

- Can you just repeat that, sorry? I just want to find the place.
- Yes, 10 August 2021. I might be able to provide you with a bigger copy now, we've found the problem. over to page 262.
- Oh, I see, yeah, it flows.
- Is that the 10 August 2021 report? Q.
- Α. Yes.
- I might steal that little version off you because I've marked it up, Mr May. I guess I'll start with an introductory question. These reports being three months apart, had your view changed by 10 August 2021 as to whether the councillors warranted a return to council office?
- Definitely, and that was influenced to a high degree by the arrival of the general manager, the new general manager. When she began to alert me of some of the issues under the surface which I hadn't - weren't known to me and, in fairness, they wouldn't have been known to Mr McMahon, he had his hands full dealing with the day-to-day operations. But at that stage we had a stronger group in the council, extra people had been brought in, and able to look further under the surface, so yes. And I admitted in a minute that I'd changed my views on a return of the council.

.05/04/2022 (7)

THE COMMISSIONER: Q. So what was your view as at 10 August 2021 about that issue? I'm just not sure I follow the sequence.

- A. I was of the view that, in effect, there should be a public inquiry into the council, and I formed that view based on the advice that the general manager was giving me and her concerns, and the fact that the mayor had gone on radio to say that he'd probably be unwinding some of what, you know, we'd tried to achieve. And I thought to myself, "There's no lessons have been learnt here".
- Q. Yes, so the change in view, just so I understand, was in the 10 May report you'd said:

Suspended councillors in my view do not warrant a return and should they so desire can present for re-election in September 2021.

And by August you'd formed the view that it was an appropriate matter for an inquiry which would - well, I thought the elections were delayed anyway, but is that the idea?

A. Yes, I thought an inquiry was the only way to the truth.

THE COMMISSIONER: Yes, thank you.

- MR PARISH: Q. And perhaps more for the benefit of the public than me or the Commissioner at this stage, your view had become more negative about both the conduct of the councillors, the acquittal of their roles and the general state of the council when the suspension had taken place; is that fair?
- A. Yes, correct.
- Q. Turning to the 10 August 2021 report, it's something you briefly touched on before, but second from the bottom paragraph on the first page you mention that:

The meeting of Council that was called to consider your Notice ...

Which was the notice of proposed suspension, I think -- A. Yes.

538 V MAY x (Mr Parish)

No, it's probably an appropriate time to deal MR PARISH: with these letters at a broad level anyway.

45 46 47

Q. You, I think, have the correct tender bundle in front

1 2 3	of you already, can you turn to page 231, I think, of your bundle. Is that the letter that you're referring to? A. Yes.
4	
5	Q. From Councillor Peter Nelson dated 8 March 2021 to
6	Minister Hancock?
7	A. Yes.
8	
9	Q. Next document along is at page 233. It seems to be a
10	perhaps pro forma customer service web form generated by
11	Councillor Whipper; is that the document you're referring
12	to?
13	A. If you go to page 234, you will find the Whipper
14	letter.
15	
16	Q. Those are the documents you're referring to?
17	A. They're the documents I'm referring to, and they -
18	reading them on the weekend gave me - "confidence" is the
19	wrong word - but I thought to myself, you know, I am on the
20	right track.
21	THE COMMISSIONED. You thould you Sonny to take you off
22	THE COMMISSIONER: Yes, thank you. Sorry to take you off
23 24	course, Mr Parish.
2 4 25	MR PARISH: Q. This is a question that might equally be
26	put to the Minister, so if you're not sure just feel free
27	to say you don't know, but in your view was this the sort
28	of submission that the Minister or a Minister would be
29	looking for when they were proposing to suspend a council
30	and invite written submissions?
31	and mires in recomb dubinios rono.
32	THE COMMISSIONER: Mr Parish, I'm not sure if in that form
33	that's necessarily a fair question to Mr May. Perhaps it
34	could be done in a different way, but I don't know that
35	Mr May can speak for the Minister's mind.
36	
37	MR PARISH: No, I wasn't suggesting that he should.
38	Perhans I'll renhrase it this way or at least start with

this question.

40 41

- Have you been involved in suspended councils before? Q.
- Have I been involved? 42 Α.

43 44

Involved with suspended councils before? Q. Five. Α.

45 46 47

Q. And --

4 5

6

7

8 9

- And you're aware of a process by which submission is sought in written form to provide the Minister who was proposing to do something with information and a view from council or councillors?
- Look, can I answer the question this way: I have no idea what councillors do when they are subject to a suspension notice, but the suspension notice was addressed to the governing body.

10 11 12

13

14 15

Thank you. I'll take you back to your 10 August - I got a bit sidetracked there. And I think I was asking you about your impression as to what led you to believe that the meeting was a debacle leading up to the suspension, and I think you've answered that.

16 17 18

19

20

If I can just take you over the page, page 2 of the By this time you had commissioned multiple reviews and audits; is that correct? Yes. Α.

21 22 23

24

25

26 27

28

29

30 31

32

33

- And you've mentioned that some had been received at the time of the 10 May - and some had come in in the meantime; is that correct? What were the issues primarily which came out of those reports that you'd received which you were drawing to the attention of the Minister?
- On page 245, the review of finances and the governance one, they're reports that I initiated day one, you could say, because they were my due diligence to make sure that I had a handle on what was happening here. The rest of the reports really come from my discussions with residents and staff to get answers for them. And, you know, I'm happy to go through each one if --

34 35 36

37 38

39

40

41

42 43

44

45

46 47

- I'll come back to some of the reports specifically, but can you tell the Commissioner the major matters that you had to address at that point and which you set out in the bullet points?
- It was trying to when you get appointed as an administrator or as an interim administrator, I think some people think you get riding instructions: you don't. are just asked, "Can you try and restore public confidence in the operation of the council?" And, these reports, and I know there was a few of them, but there's a lot more things that I could have asked for reports on from the residents, but this was as a result of me listening to

residents' concerns and I took the view that, unless I tried to address some of these concerns, it'll just go on and on, and there had to be some closure.

I think the fire reports you said you were going to come back to, so I can leave that one. But, you know, some of the petty cash stuff; you know, it seems minor, but it just sends a message about the whole organisation, and I think I've got the experience to know where to look and when to look, and I discounted a lot of what I was told because in reality some of it was an opportunity to have a go, but some was genuine, and I tried to pick out what I thought would add value to the administration period to try and restore public confidence in the council, and hence that's why a lot of those reports were done and, you know, some of them at the end of the day provide a good headline but they are part of a jigsaw puzzle, in my view.

- Q. Can I deal with a few of the specific bullet points on page 245. You touched on it briefly, but can you explain what the problem was with the housing strategy and how you went about fixing it?
- A. Well, the housing strategy is not addressed here.
- Q. Pardon me, I think I'm looking at the wrong page, it's page 246, and you've set out some major matters that have been addressed during your administration. I won't touch on all of them, but do you see bullet point 2, the "Adoption of the Housing Strategy"?
- Well, the council staff the council has an obligation to have a housing strategy and a planning statement at the end of the day, and council staff, through the general manager, came to me to speak about the problems that they've had with the council in getting a housing strategy formally adopted and in place. And I listened and asked them, you know, could they prepare a report to council on what their professional views were. At the time they also told me about the coalitions of convenience in relation to it, but I've assured those people I won't breach that confidentiality and, you know, they told me some stories which I don't think were embellished, and at the end of the day I said, "Can you do a professional report for me but I want it to go through the planning panel first for them to have a look at it", as I have done with all planning matters, they're the professionals, and there are local representatives on that.

And we've now adopted the housing strategy and there hasn't been a whimper, because what we've done in addition to that has said that - and this forms part of the bigger picture of taking the council forward - I asked the staff. could they do another report for the community to lay out what the processes are now. Just because the council has adopted a housing strategy doesn't mean they're going to plonk a thousand houses in East Bowral, there's processes to follow, and can you make sure that report recognises that lessons have been learnt, because, you can't make mistakes and not own up to it.

11 12 13

14

15 16

17

18

1

2 3

4 5

6

7

8

9

10

Now, I'm not saying that was the staff who made those mistakes, I think it was a lack of leadership with the council in getting to an end position, but the person - the people involved in that section, I think, are very competent and I've been out with them to look at it and some residents have made representations to me and I've sided with the staff when they've explained to me why.

19 20 21

22

23

24

25

26 27

28 29

30 31

32

33

34

35

36

37

But we then went to the process of, as I said, you just don't plonk those houses out there, there's a whole process you've got to go through about - well, the simplest way I put it is, when you up-zone the land owner shouldn't just get a pot of gold, and they walk away and leave it to the developer to fight it out with the council and the residents. You need to have processes in place, and that's what we are now working on, and as a matter of fact the general manager and myself met with the Minister of Planning the other day, because the land use planning in this place has no strategic focus, we need time to get it right, and we've gone on knees to the Minister to try and get some money to help us, to be quite frank, it's beyond the financial capability of this council to catch up with the legacy issues that have been inherited through - and I don't want to go on about this, but I think it suited the council not to have all of these things in place because there was a control.

38 39 40

41

42 43

44

45

46 47

Whereas, if you deal with it at the upper level, and that's the councillor role, everything else falls into It's not easy, but it works, and I think the community strategic planning processes of the Local Government Act aren't too bad; it's just those who don't want to follow them and who want to have control, but the council at the end of the day, the governing body, has total control over these things.

5

THE COMMISSIONER: Q. The fact that it hadn't been done or achieved over some time, were you able to form a view as to why it had got to that stage?

Yes, a definite view.

6 7

- Q. And what is it?
- Α. It didn't suit the councillors or some of the executive staff.

9 10 11

8

- When you say "it didn't suit them", what do you mean Q. by that?
- Well, they had more control over the process.

13 14 15

16 17

18 19

20

21

12

- Q. I see.
- Α. And that's why I said earlier, there seemed to me to be a slight resistance to the idea of a panel when I asked the staff to prepare the documentation for it; I kind of got, you know, "Why?" Well, why was clear to me, but those who want to micromanage and have control loose that control because the bigger picture takes over. You know, I've met with the --

22 23 24

25

Q. Sorry to interrupt you, but the councillors would have an opportunity to exert their influence at the policy stage, would they not?

26 27

Α. Total, yes.

28 29

Q. And they could set the direction? Α. Yep.

30 31

32 Rather than getting - perhaps a poor choice of words -

33 34 35

36

37

considered later; is that --But the community would have a consistent approach and at the next election if they wanted to get rid of them, they could, but it wouldn't be higgledy-piggledy; not what you know, who you know planning type thing --

but getting down into the weeds when things came to be

38 39 40

Q. Yes.

41 42 43

-- you would have a consistent approach and, you know, residents want consistency; they don't want an ad hoc approach to planning and --

44 45

- Q. And does that tie back --
- 46 Α. Sorry.

47

6 7 8

9

10

25

26

18 19

32

38

39

40

41

42

43 44 45

46 47 Q. No, I interrupted you. Go on.

But there are some overarching rules though from the State in relation to LEP development. Look, Commissioner, I was at a meeting - I'm still going out to meetings as much as I can because I'm trying to reconnect this council particularly with the villagers who feel robbed, and it's a slow process but I think we're getting there.

I was up at a meeting up at Bundanoon and a resident up there indicated to me that we were going about this the wrong way, we had to deal with the LEP first and then get all this information. And, you know, when I said to that person that, "You cannot down-zone", the person wouldn't And so at the end of the day I was guite firm and I said, "The reality is, you can't just down-zone. What we're trying to do at the moment, and it's not a quick fix, we're trying to get the community back in control of this shire and this is the way you do it: you do these studies, you do this consultation, you do this research". You know, the days of having things imposed on you, even by the state, the council should be in a position where they're responding to what the community's expectations for the shire should be.

The reality is, whether people down here like it or not, and I hear a lot of reference to all these people who come down from Sydney and take over: it's a nonsense. know, people will come here, but people have been coming here for generations, potentially mostly from Sydney, but the council needs to have an overarching vision for what it wants, just not being picked off.

Look, I'm a bit of a soap box now, but I look at Station Street and then I look at Old South Road. live in Manly, when I go home and you put it into your GPS, it will take you along Old South Road. I wouldn't go along Old South Road, there's potholes everywhere, it's a But the council lost a huge opportunity when all shocker. that development - and you probably don't know about the development in East Bowral, there's a lot of it. had to have their strategic planning in place and if they'd have done things properly Old South Road could have been done but basically funded from all that development: lost opportunity.

In my view, and some people don't like this, but a lot of developers have taken their pot of gold and run and left

the problems to the council and the community, and at the end of the day that's something that's happened over a long time and the general manager and myself are now trying to take control back for the community of the area they live in.

5 6 7

8

10

11 12

13

1

2 3

4

Does that require strong overarching strategic plans to be able to achieve that? Oh, definitely, yes.

9

- Was that something that was lacking or has been lacking over time?
- In my view, yes. Sorry, an example, and I think the general manager sent to you the roadmap?

14 15 16

17

18 19

20

21 22

23

24

25

26

- We have I was aware that it had been I've been Q. made aware that it was done and we've obtained a copy off the last council business papers, I think, from 16. What happened with that was, Ms Miscamble almost on
- Christmas Eve said to me, "Look can you have a look at this, this is my snapshot of where we've been, where we are, where we've got to get to". I took it home over Christmas and I read it and I said, "I think this is fantastic, how have you got time to do this?" Anyhow, and then I said to her, "I think some of your dates are very, very, very ambitious, because, you know, this is going to take time".

27 28 29

> 30 31

> 32

33

34

35

36

37

I then said to her that, "This is something that the community deserves to have because they can then get a snapshot", and she was a bit hesitant, but we agreed in the end that it would go to council, and I think it's a document that residents should read to see the complexity of what the council has got itself into and how, with this roadmap - and I'm not saying the council has got to follow it to the nth degree, but it clearly shows operationally how the general manager is thinking; they're the kind of things that should happen.

38 39 40

THE COMMISSIONER: Yes, Mr Parish might take that up with you after morning tea. Is that a convenient time?

41 42 43

MR PARISH: I have one clarifying question.

44 45

THE COMMISSIONER: Yes.

46 47

MR PARISH: And more so perhaps a dummying down for my own benefit.

Q. When you say that the housing strategy, there was an impetus or a convenience in not passing it because it may have taken power away from councillors or executive staff, are you saying by that, that a housing strategy would remove some of the discretion which lay with councillors and executive staff and that discretion was, in your impression at least, in their interests to hold on to?

A. Not that simple.

- Q. Okay. I shouldn't have dumbed it down.
- A. Sorry, sorry. Look, I know a little bit about a lot up here, and basically what I've been told by staff and residents. It's my understanding that there were, in effect, trade-offs around Robinson and Coledale which the staff thought were disgraceful, and whether any of those people have made submissions, I don't know; I'm keeping their confidence of what they told me.

But when I went to Robinson, and I've had several meetings in Robinson, the residents down there are happy for some more development because they understand the problems of housing and it's complicated but there's another issue in the shire and that's these dormant lots. There's about 3,000 dormant lots in the shire. Now, the value of land is now such that they're gonna get developed, and you go to Bundanoon and people aren't happy about it because the council doesn't have an overarching plan to deal with it and I think at the last meeting we allocated some money to deal with that.

So, the council professional officers know what they're doing, and I'm not saying that the council has to rubber stamp it, all I'm saying is, they should listen and be part of the action rather than just wanting to meddle in little things.

MR PARISH: Thank you.

THE COMMISSIONER: Is that a convenient time, Mr Parish?

MR PARISH: Yes.

 THE COMMISSIONER: Mr May, we're just going to break for about 20 minutes, to restore cognitive functions, so if you'd be kind enough to resume at about 10 to 12. Thank

1	you, we'll adjourn.
2 3	SHORT ADJOURNMENT
4 5	THE COMMISSIONER: Yes, Mr Parish.
6 7 8 9 10 11 12 13	MR PARISH: Q. Mr May, this might be the time to tender some documents through you. I'm going to show you two documents that I propose to tender to the inquiry and I'll just get you to identify those documents. Hopefully the first document you've got is your submission to the inquiry dated 28 October 2021? A. Correct.
15 16 17 18 19	MR PARISH: Commissioner, I'll tender that, it's the submission by the office of the interim administrator, Wingecarribee Shire Council, being Mr May, dated 28 October 2021.
20 21 22 23 24	THE COMMISSIONER: Yes, Exhibit L will be the submission of Mr May to the inquiry dated 28 October 2021. That's already in the public domain, so that can go on the website as soon as that can happen.
25 26 27	<exhibit #l="" -="" 10="" 21.<="" 28="" dated="" inquiry="" may="" mr="" of="" submission="" td="" the="" to=""></exhibit>
28 29 30 31 32 33	MR PARISH: And the second document there, I think it's about 100 pages, almost, starts No.9, general manager. 9.1 our roadmap, moving forward to reset our organisation". Do you see that? A. Yes.
34 35 36 37	Q. Is that the document you were referring to produced by Ms Miscamble before the break? A. Yes.
38 39 40 41	Q. I think you gave some by and large positive evidence about it just before the break, but could you just tell the Commissioner, is this a useful document going forward to chart a structure for this organisation?
42 43 44 45 46	A. Most definitely. This lays out - it was originally - as I understand, it was originally just going to be an operational thing for the staff, and as I understand it the general manager has circulated this to staff so there's clear guidelines for the staff about where the organisation
47	is going, and I suggested to her that it's just as

important for the community to know where the organisation is going, because in effect in my view it's got to be open and transparent and the days of secrecy should go and she agreed.

This document, in effect, indicates where we've been, where we are, but where the general manager as the, in effect the chief executive of the organisation, wants to So, it'll be very handy if anybody who wants to stand for an election too, because it's got a long horizon.

THE COMMISSIONER: Q. From that last observation, do I take it it's an important document for the next governing body to understand and have buy in in the process? I believe so, yes.

THE COMMISSIONER: Thank you.

MR PARISH: I'll tender that document, Commissioner, it's, "Our Roadmap: Moving forward to reset our organisation", it's just over 100 pages long.

THE COMMISSIONER: Bundle of documents with the first page being an extract from the agenda at the ordinary meeting of council on 16 March 2022, item 9.1, "Our Roadmap: Moving Forward to Reset Our Organisation" will be Exhibit M. That is also a document that I understand is in the public domain, so that exhibit can be placed on the inquiry website as soon as possible. Thank you.

<EXHIBIT #M - BUNDLE OF DOCUMENTS WITH THE FIRST PAGE BEING AN EXTRACT FROM THE AGENDA AT THE ORDINARY MEETING OF COUNCIL ON 16 MARCH 2022, ITEM 9.1, DOCUMENT ENTITLED "OUR ROADMAP: MOVING FORWARD TO RESET OUR ORGANISATION".

MR PARISH: Thank you, Commissioner.

- One topic we were touching on shortly before the break was the housing strategy, and I'd just like to ask you: the general strategic planning framework that was in place, did you see that as sufficient at the time that you came on board and started reviewing the council?
- I adopted the status quo, what the governing body was putting forward, and I think it has some holes in it, but I haven't been through everybody word of it, but that was the direction that the governing body wished to take the council, and you understand how they - you know, 10:4 and

- Q. I think you mentioned before the break, quite early, that you have some views on the land use planning in this council, and you may have touched on some of them in other answers, but is there anything else you want to share with us about the land use planning policies of this council and where they need to go?
- A. No, excepting it's my view that the council has to take its community with it in these processes.

 Q. Can we go to page 246 of tender bundle B which we were on, and we were talking about dot point 2, "Adoption of the Housing Strategy", can you see that?

A. Yes.

- Q. Can we just go to the next one, "Adoption of a new Structure", can you tell us how that came about and what new structure you're referring to there?
- A. Well, the Local Government Act provides that the structure is approved by the governing body of the council, and it also provides that every four years when a new council comes in you've got to review the structure. This council had a structure of, in effect, two directorates and you will see in my minutes also that I've been critical of it, in that, it doesn't pay enough attention to strategic direction, it's more just day-to-day operational stuff.

I have my own views because I've been around a long time on what a structure should look like. I asked the acting general manager, Mr McMahon, what his views on a structure were. Because we had time in relation to this because of the issue with --

THE COMMISSIONER: (Indistinct words), sorry about that.

 THE WITNESS: Of trying to get a general manager for the place, that's another story altogether, but we had time to begin to look at the structure and I asked Mr McMahon to

have a look and I asked Ms Racomelara for her view also, because she's an expert in that area, and the general manager came forward with a structure which has three directorates and she - I shouldn't say "she" - the general manager is going to have two other reporting special projects, strategic, and in effect staffing matters, so that's what that talks to.

MR PARISH: Thank you.

 A. But in relation to that it has been slower because there have been some industrial issues, as I understand it, that have slowed down what the general manager can now do when she now goes to group managers and functions, but I think those hurdles are out of the way and they're moving forward. But the document we just tabled outlines that process.

Q. Thank you.

 A. And, I don't want to harp on, but the general manager also has to deal with the staff consultative committees and the unions, there's processes that must be followed and are being followed.

Q. Thank you. I'm going to take you shortly to some of the reports which were commissioned, so I'll skip a few of those bullet points, but can I go down to second from the bottom:

Provision of certainty for the community on major politically destabilising issues ...

You referred to a few of those already, one was Station Street. Can you tell the Commissioner the view you formed about the Station Street project and what you did about it?

A. Station Street raises its head in this community all the time, and there was a lot of uncertainty about what the council's position was, there was a lot of rumour, some of which I think became fact, and we just need to be open and transparent.

The council had reports that it hadn't released in relation to it and I think some of the concerns about leaking information comes from Station Street too, but in effect what was a project under \$10m ends up a project over \$30m, of which the council only had in round figures about,

you know, \$17m. I think that some people thought the council was just going to head off and do it, but the community wouldn't know what the council was going to do because the council wasn't being open and transparent and honest about it.

I arrived, I had watched what was being said about it at council meetings. I met with the Friends of Bowral group, I also met with individuals who were less vocal in the community but who wanted to have a say and were entitled to a say - you don't just have to be an organisation to be heard - and I formed the view that it really didn't matter - and I'm not a traffic engineer, this is just common sense, it really didn't matter what council did in Station Street, you're not going to fix the problems in Bong Bong Street.

Then there was the question of the pin oaks - do you know the area at all?

THE COMMISSIONER: Yes, I viewed it and I'm aware of the pin oaks, yes.

THE WITNESS: Well, I wasn't going to be responsible for taking those pin oaks down, it's quite as simple as that. And the road pavement's a disgrace. I was lucky that Mr McMahon is an engineer and I said, "Help, we've got to sort this out because it just can't keep festering along and that led to a report which was professionally driven in this organisation that came to a conclusion which I think has been accepted by the community.

What I was trying to get on to earlier was, if the council had done its strategic plan properly, I think a lot of the traffic impacts on Station Street and Bong Bong Street would disappear because people travelling north from Moss Vale would use Old South Road, but the council lost that opportunity. So, there were just compounding issues, but Station Street was an issue, it was obviously under-scoped. There has been concern that a grant - part of a grant was given back, but you can't mislead government, the criterias that the government set for the grant weren't achieved.

THE COMMISSIONER: Q. A view was expressed, and tell me if you're not in a position to express a view about it, but there was at least a perception at various times that the

A. Can't express a view. My view is that it had - the council dug itself a hole and it just couldn't get out of it. And, I don't know whether you're aware, but they were talking in a - even the Department of Transport contacted me about this project - the council was looking at moving the car parking at Bowral to Mittagong Station.

- Q. Yes.
- A. You know, and they weren't being up-front with the community about the reasons why, and so that bred mystery and well, I think we've addressed it. Look, there's no question something is there's going to have to be a bypass one day, but the council does not have the funding at the moment and there may be other ways to achieve it.

Q. Just before I hand back to Mr Parish, could Mr May be shown Exhibit K, I just want to ensure that I'm understanding that passage of his evidence?

In your answer a moment ago you referred to a report that had been driven in the organisation and one that I think you said you come to the view achieved some acceptance within the community. Is this the report that you're referring to?

A. Yes.

 THE COMMISSIONER: Thank you. Mr Broad, that can be taken from Mr May, I don't have any other questions about it at the moment. Mr Parish.

MR PARISH: Thank you, Commissioner.

Q. I want to take you to a few of the reports which were commissioned and their conclusions. It seemed probably the best way to do it is to go through in the same order of the matters raised by you in your report.

Starting with the Bushfire Response and Recovery Review, you've got a bullet point there on page 4 of your report. Can you start by telling us why that review was commissioned?

A. When I went on my trips to the North and Southern Villages in particular, I was stunned by the effects of the

46 47

fire and then, when I began to hear personal stories about the alleged council inaction, I couldn't believe it. is remote of the actions of the emergency services, this is the council's response.

I then spoke to one of the new acting deputy general mangers and she indicated to me there had been failures, both on the part of the council and the administration. And I said, "Well look, we need to give everybody an opportunity to have their say, can you do me a briefing note on what happened?" I think that was on the Thursday or the Friday.

On the Monday the person came to me and said, "Mr May, this is bigger than a briefing note, you're going to have to have a review, I think, because the community is not going to accept that, the community doesn't - they're suspicious of us and they'll think it's a cover up, you'll need to get somebody external to get the review".

I spoke to some potential people and then the person who had come to me originally said to me that she had found Dave Owens, who was recommended to her by, I think the RFS, and he'd undertaken the state review, was part of the state I said, "Well look, we now need to do a brief but you must be very clear that this is the council's response, we can't get into other territory", and that happened and really the rest is history.

I think, of everything I've done here, that's had the most human effect, that report, and I think residents appreciate it and it certainly showed up the shortcomings of both the governing body and the administration, but more particularly the behaviours of the governing body as residents told their stories to Mr Owen and staff confidentially told their stories to Mr Owen.

After the report went to council and the general manager and I discussed it prior, I said, "We need to get somebody independent of the council now to look at all these recommendations because there's a lot of them and there's a lot of failures, and it's gonna cost us a lot of money to move forward, but it can't happen again because there will be more fires, there will be more emergencies".

Ms Miscamble then indicated to me that Leanne Barnes, who was the former general manager of Bega Valley who lived

- through the fires was available. I actually then spoke to Mr Owen to get his view on her taking forward the recommendations, and he thought that was an excellent choice. In that conversation he said to me that, "Look, there is a matter that I didn't put in the report which I should alert you to". He said, "There were 17 submissions by staff, 15 of them requested confidentiality in fear of retribution". You know, that stunned me, particularly with a council administration, and they've been worked through. There's further reports gone to council about this now, it's been a whole-of-council response and, you know, I haven't discussed it with the former councillors at all, I've moved on, but there are some things in there, you know, that are guite unbelievable.
- Q. What does that tell you about the culture at least at the time that the report was done when 15 out of the 17 staff were fearful of retribution?
- A. Definitely and --

- Q. But what does that tell you about the culture? What does that tell you?
- A. What does it tell me about?
- Q. The culture?
- A. I'm going to be quite frank, it worried me, because I'd been here a few months and if staff were still worried this was very deep-seated. You know, the reality is, people have been moved on from the organisation, where there's still some there that, you know, were a concern to the rank and file, if I could put it that way. But I don't think it was, I think the major concern and some of the staff have since spoken to me about it, their major concern was when the elections were held and some of those councillors coming back, they'll be targets and, you know, that's just not acceptable. And I think to a degree in this organisation there is still an undercurrent of fear that, you know, if certain councillors get back, it's gonna be on again.
- Q. Can I ask you about the deficiencies that you recall in the preparation stage as opposed to the response stage. A. The council really had no emergency plan to deal with it, that's the bottom line, and it was catch-up all the time. And I well, you're dealing beforehand so I can deal with that later.

surprised.

44 45

46 47 hence that's one of the reasons, you know, I think - but I

don't have the ability, and I wouldn't, to address those kind of issues with individual people, but I - I'm not

Having not heard from the mayor yet, or having not given him the opportunity yet to respond to those allegations, assuming that certain things were said which I assume you're referring to, assuming they were said, do you think they were appropriate things to say?

Most definitely not.

Q. Moving to the next sentence:

> A small number within the community believed that he [being the mayor] did a good job, however, the majority believed that he lacked empathy towards bushfire victims and presented no plan on behalf of council for moving forward.

Is that a fair criticism? Is that, in your experience, an accurate reflection of what happened? I wasn't there at the time. This has been a very difficult exercise for me, the fires, and the human cost of the fires, and I wasn't there at the time but by virtue of the council's lack of formal procedures in dealing with it and some additional of what I know about mayor relief funds and that kind of stuff, I'm not surprised, but I can't confirm or deny, if I can put it that way.

Thank you. The next sentence effectively is a Q. restatement insofar as it covers the topic of conduct which was inappropriate and lacking empathy. It then says:

It was apparent that the mayor lacked support from some senior counsel staff.

Is that a fair criticism in your experience from what you've learned?

- Yes, my understanding is that some of the senior staff were missing in action.
- Was the mayor entitled to expect that sort of support Q. from senior counsel staff?
- Α. Most definitely.
- Q. Just going down to the next paragraph there, it says:

Effective communication was hampered by a number of councillors offering assistance

8

9

1 2

> Do I take it that certainly the phrase "to uphold" means, whilst you don't have to wholeheartedly embrace it, but you shouldn't take active steps to undermine it? that a fair reading of that section in your opinion? Α. Yes.

11 12

10

Q. Going up a sub-paragraph to sub-paragraph (e):

13 14 15

16 17

The role of the councillor is to facilitate communication between the local community and the governing body.

18 19

20

21

22

Assuming the instance given in the bushfire report that there were councillors effectively making promises that they had no ability to make, what does that do to the facilitation of communication between the local community and the governing body?

23 24

Undermines it.

25 26

MR PARISH: Thank you.

27 28

Commissioner, I was going to move on from the bushfire reviews specifically unless you have any --

29 30 31

32

33

34

35

36

37 38

39

40

THE COMMISSIONER: Q. Just about the bushfire review report in isolation for the moment. I'm aware that a view has been expressed that together the reports you commissioned revealed relatively insubstantial issues. Ιf I just look at the bushfire report in isolation for the moment, what do you say to the proposition that the bushfire report revealed relatively insubstantial issues? It shows me that those who are saying it have no understanding of their role - if it's coming from councillors - of their role. The bushfire report speaks for itself.

41 42 43

44

45

And when you say that view leads you to the conclusion that, if it was a councillor, that they didn't understand their role, why do you say that?

46 47

Because the role of the - look, in my submission to Α. you I say that the role of the governing body is clear, the

4 5

6

7

8

9

10

11

- Q. Yes.
- It's just, it shows there is there could be an understanding but the people concerned may not want to understand, they might just want to be mischief makers for all I know, but the fires were a tragedy and this area got The council as a corporate, as a governing body and the executive just wanting to move on and not take any ownership of the failures just shows a clear - if people are saying that this report was not warranted, they misread the community they were elected to represent.

12 13 14

15

16

17

18 19

20

21 22

23

24 25

26

27

28

And, if one looks at those comments across the whole Q. totality of the reports that were commissioned - I appreciate Mr Parish hasn't been through them all just yet - but if that comment was applied to each of the reports, that is, overall they displayed relatively insubstantial issues, is your comment the same? The fire report stands by itself, and some of the other reports, I was selective in where I was going, but I was trying to show trends and what was actually going on in the place, and some of the reports - look, I was conscious, I ended up spending \$115,000 on reports, in my view money well spent for the community because it exposes the reality of the operations of this organisation. Some of them perhaps could be seen as minor, but they all fit in my view into a bigger picture and they helped me to come to a

29 30 31

32

33

I had in my mind before morning tea, I think you used the word, it's a jigsaw puzzle, you put it all together to enable an overarching view; is that how I understand you see it?

34 35

36

Α.

37 38

39

40

41

42

And when looked at as the whole, including the bushfire report, because it's part of it, what do you say to the proposition, when viewed as a whole, those reports taken together disclose relatively insubstantial issues? Well, I could have a one word answer, but I just think Α. it shows a lack of understanding of what the roles and responsibilities of the council are, at both levels.

43 44 45

- Both levels, you mean councillor and operational Q. staff?
- 46 47
- Α. Executive staff.

conclusion.

Yes.

A. Sorry, Commissioner?

 Q. Yes.

A. Staff came to me, not even at the third level, but lower levels of the organisation when this was going on and saying, you know, "Thank you, it had to come out". They weren't allowed to talk about it and, you know, for obvious reasons when you're 15 of the 17, but so many staff had skin in the game as well; they live here, you know, their relatives could have been affected. It had a huge impact on the organisation and, you know, I know that some people say that the behaviour of the council deteriorated after the fires: well, the fires provided evidence that all was not good.

THE COMMISSIONER: Yes, thank you. Yes, Mr Parish.

 MR PARISH: Q. I might just pop off on a tangent arising out of what has arisen from the Commissioner. Another proposition that is allied with the relatively insubstantial issues proposition, is the proposition that it's a small but vocal part of the community that is expressing their dissatisfaction and by and large the community is happy with the direction of the now suspended council. Do you have a view on that?

A. I've heard this a lot and, talking to councillors, they couldn't understand why, you know, a handful of people and couple of disruptive councillors in their view had caused all this.

There is more than a handful of people, that's why I spent so much time and, you know, I went to the communities and spoke to the people and the issues were many and varied. I think I said earlier, everybody I spoke to had a story about the council, it just wasn't a handful of people. And, you know, the first council meeting I had, I think it had over 1,000 views. That's not a handful of people, that's people concerned about the future of their local democracy.

Q. In that context, could I take you to page 485 in tender bundle B, which I think is in front of you. A. Yes.

Q. That's a community research report dated February

2021; is that right? 1 I'm sorry, page 405? 2 3 Q. 4 485. 5 Α. I'm sorry. Yes. 6 7 Thank you. I appreciate this report was dated and therefore commissioned before your appointment as interim 8 9 administrator, but did you have occasion at some point to read and review this report? 10 This report was brought to my attention by Mr McMahon, 11 12 and I wouldn't say I read every word, I've read the headlines. 13 14 15 Do these community research reports have a role to play in the metrics against which councils measure 16 17 themselves? 18 Α. Definitely, yes. 19 Can I take you to some of the findings. I might start 20 21 with page 489. Α. Yes. 22 23 24 I appreciate you're not a statistician, but there was 25 an overall satisfaction rating in this finding that at least 65 per cent were somewhat satisfied with the 26 27 performance of council in the last 12 months. that statistic strike you? Is that above average, about 28 29 what you think is about right? No, no, much higher, it should be much higher than 30 31 that. 33 I might take you to the benchmarks in a second. 34 it at least roughly align with your experiences and what 35 you were hearing from community, where --36 Α. That's a hard question.

32

37 38 39

If it's too hard or it's not something you feel like you can give an answer --Well, I don't think I can give a really - to me, in isolation 65 seems low; very low, actually.

40 41

42 43 I might take you to the comparative rates first, I think that might be a better way to deal with it. 44 take you to page 518 of that report. 45

Yep. 46 Α.

Ο.

Yes.

4

5 6 7

8 9

10

11 12 13

15 16 17

18

14

24 25 26

27

37 38 39

40

41

36

42 43 44

45 46 47

Do you see there that this is benchmarked against other councils. Take your time and have a read of it if you want.

THE COMMISSIONER: Mr Parish, whilst Mr May is just familiarising himself with those pages, will you be coming back to page 498 through to page 503?

MR PARISH: Yes.

THE COMMISSIONER: Thank you.

MR PARISH: Q. Can you give me your impressions of the performance of council based on the statistics we have there?

Well, the areas that impact on the day-to-day lives of residents are really the ones that are low scored. view the reality is that 95 per cent of residents aren't really interested in the council unless they have a DA next door or they've got a puddle out the front or flooding; they trust you to get on with it. I spent a career at Mosman telling council staff, "It's the people who aren't in the room that we've got to represent as well, just not the squeaky wheels. Everyone pays rates, you need fair representation".

This shows me, you know, the real issues, the day-to-day, are scored badly. You know, the availability of town water, I can see why that scored very high because I believe that they are true pluses in this organisation, water and sewerage, and we could do better in the villages and we're working on that, but they're just taken for granted, they're day-to-day: you turn the tap on, it works. People don't understand the complexity behind the scenes to make it work. And I've heard of what happened during the fires to make things work, the dedication of the staff to do that.

But I think the core issues in this place, and you would have heard this many times about roads and potholes and stuff and building regulations and information to residents, you know, they're all the things that the council should be working on to improve.

Can I take you back to page 498, it might be a little bit hard to read it, it is on mine, but it's page 15 of the actual report.

1	Α.	Yes.
2	_	
3	Q.	Perhaps if we can start with the "Satisfaction scores"
4		e we have a bar graph with the years 2021 to 2010 going
5	backı	wards. Do you see that?
6	Α.	Yes, yes.
7		
8	Q.	Again, have a read of it to refresh your memory if you
9	need	to, but I just want to ask you
10	Α.	No, I've looked at this one many times.
11		
12	0.	What's your impression of, firstly, the trajectory and
13		that tells you based on your knowledge of the
14		nisation?
15	_	Well, it shows me that there's been a problem over
16	time	·
17	CTIIIC	•
18	Q.	Yes.
19	Α.	There's a deterioration in the community's - but I
		•
20		t know whether you're aware, but this was not made
21	pubi	icly available, this report.
22	0	A
23		Are you aware why that was?
24	Α.	Oh, I think I know why
25	•	-
26	Q.	There's no structural, legal or operational reason why
27	not?	
28	Α.	No, no. Look, in this game you take the good with the
29		you learn, and this was an opportunity for the
30		cil. I don't know whether this was shared with the
31		cillors; all I know is that Mr McMahon was amazed one
32	•	he said to me, "I don't believe what I'm finding ",
33		ne showed me this and since then I've been shown a
34		f - actually, it's in the general manager's report, a
35	staf	f culture survey which was never made available either.
36		
37	THE (COMMISSIONER: Q. I take it from those answers, your
38	view	is these things should be made public as a matter of
39	cours	se in council operations?
10	Α.	Using public money to fund it.
11		- ,
12	Q.	Asking the public what they think?
13	Ä.	Yes.
14		
 15	O	Yes quite

A. And, you know, potentially not listening, and that's a strong theme I have, that I think this council's just

1 2	stopped listening.
3 4 5 6 7 8	Q. And numbers like this, do they also inform your answer to Counsel Assisting earlier about the view that this is just a small but vocal section of the community that's voicing their displeasure? A. I've rejected that from day one, that it's just a small
9 10 11 12 13	Q. But is this a metric when I come to consider that view, that, you know, points to the counter-position that you favour? A. M'mm.
14 15	THE COMMISSIONER: Yes. Thank you.
16 17 18 19 20 21 22 23 24 25	MR PARISH: Q. Could I just ask you about the mean ratings which are the bar graphs on the left-hand side which go from left to right. It's the council mean ratings measured against the LGA benchmark for Regional Councils of a similar size. Do you see there's a reference underneath to the change being significantly higher or lower as a level of satisfaction compared to the benchmark; it's a key or a metric in the bottom left-hand corner there? A. Yes.
26 27 28 29 30 31	Q. Do you see that, for the matters "very satisfied" and "satisfied" there has been a significantly lower level of satisfaction compared to the benchmark? There's an arrow pointing down towards next to each of those. A. Yes, yes, sorry.
32 33 34 35 36	Q. It's not as clear to read, is it, Mr May. So, it's got 3 per cent and then it's got an arrow downwards next to it next to "very satisfied"? A. Yes.
37 38 39 40 41 42	Q. To take the other extreme, if you go down to "not at all satisfied", the benchmark is 5 per cent, this council is 15 per cent, and there's a little arrow next to it pointing upwards; do you see that? A. Yes.
43 44 45 46 47	Q. That means that, do you agree, there has been significantly higher levels as against the mean of "not very satisfied" and "not at all satisfied", and significantly lower levels of "very satisfied" and

1	"satisfied"? Do you see that?
2	A. Yes.
5 4 5 6	Q. What does that tell you about, firstly, whether or not it is a small minority who are agitating dissatisfaction against the governing body?
7 8 9 10	A. Well, I have no doubt the statistical base of this survey would be such that it would have, you know - it'll have in the front somewhere whether it's 3 or 5 per cent reliability; that shows me that the council's got problems.
11 12 13 14	Q. Commissioner, I'm going to turn over the page to 501, is there anything else you want to ask?
15 16	THE COMMISSIONER: No, thank you.
17 18 19 20	MR PARISH: Q. Can I take you to page 501 which is performance of elected councillors. You will see there that the question asked is:
21 22 23 24	Thinking specifically about the Councillors elected in September 2016, how satisfied are you with their performance on the following
25 26 27	And it's then broken up into a range of questions or
28 29	topics. The first one is, "Representing a broad range of community matters fairly". Then over the page, the next one is, "Effective leadership and guidance of the
30 31 32 33	community", and the next one is, "Performance overall". Looking at performance overall at page 503, and just taking your time to read it if you need to refresh your memory, I'm interested in what your impression is of those
34 35 36	community findings? A. It just shows the community overall is far from satisfied.
37 38 39 40	Q. And that accords with your experience in talking to people in the community? A. Yes, yes, yes.
41 42 43 44 45	Q. What do you say to the proposition that it's only a small proportion of the community (indistinct) A. I just can't agree with it. I've been from that position about a week after I got here.
46	pos. c. c about a nook at co. 1 got not of

THE COMMISSIONER:

Just on page 503, Mr Parish, do I read

1 2 3 4 5	this survey, there's the five categories from "very satisfied" down to "not at all satisfied", and in the "not at all satisfied" we have 23 per cent with the arrow which signifies a significantly higher or lower rating by year for that category.
7	MR PARISH: Yes.
8 9 10 11 12 13	THE COMMISSIONER: And then "not very satisfied", 28 per cent, so we have just over half of responses being not very or not at all satisfied with the overall performance of councillors; is that how one reads that?
14	MR PARISH: Yes, quite.
15 16 17	THE COMMISSIONER: And the trends are at the top.
18 19 20	MR PARISH: The trends are at the top, and Commissioner, you also see the little arrow up or down next to some of the bars gives you a comparison to 2019.
21 22 23 24	THE COMMISSIONER: Yes, the lighter box in the bar is the previous survey?
25 26	MR PARISH: Yes.
27 28 29 30 31	THE COMMISSIONER: Q. Mr May, you may have already answered this in an earlier question, just for my clarification, it's not only the individual scores per survey that matter, it's the trends that are also relevant, are they?
32	A. It's the trend is what's important.
33 34 35 36 37	Q. And these numbers depict a declining trend overall;why is that a matter of concern in these types of surveys?A. Because that's the community's or the stakeholders' view on the elected body.
38 39	THE COMMISSIONER: Thank you, Mr Parish.
40 41 42 43 44	MR PARISH: Commissioner, I've done that a bit out of order from the way I wanted to deal with it, but having done that now, is there any other questions you want to ask on that?

THE COMMISSIONER:

45

46 47

That's probably my fault.

No.

THE COMMISSIONER: No, thank you.

MR PARISH: Q. Mr May, I want to turn back to dealing with some of the reports specifically now. The next report I wanted to ask you about was the Earnest Consulting report on planning development and regulatory services, and specifically the second report that was titled, "Righting the Wrongs", and that report is at page 434 of the tender bundle.

A. Yes.

- Q. Can you tell me about why you commissioned this report and the context of it?
- A. I commissioned this report because I was overwhelmed with the number of people who were approaching me about development issues. I am not a planner, and I couldn't cope with the number and I couldn't give constructive answers to the residents who were approaching me, because really it's not my area of expertise; I was quite clear when I did a minute and look, everything I've done I've done by I've kept the community informed of where I was heading by administrator minute, and in that report I said I'd be heading off in this direction but we weren't going to re-open issues, and I think over 60 people ended up seeing Mr Ryan; I had no hope of dealing with that. He's very experienced in this arena and I think he was shocked.

- ${\tt Q.}~{\tt I}$ think it was 83 interviews with members of the community --
- A. I'm sorry.

- ${\tt Q.}\,$ No, but in your experience is that a significant number of people to come forward to --
- A. I think it's unbelievable.

- Q. Yes, thank you. On page 435 of the tender bundle we've got the themes that arose from interviews with staff members, and over the page we've got observations from the public. By all means take your time to refresh your memory if you need to --
- A. Yeah, I don't --

 Q. Can you tell me whether their observations and themes accorded with your experience from what you'd been dealing with?

- A. From the small sample that I had this confirms, with a bigger sample, what I was being told.
- Q. One of the issues you raised was the observation of interference and political games in matters of strategic importance such as the housing strategy. We've covered that area in some depth, I think, but is there any other matters you wish to add on that observation that we haven't discussed this morning already?
- A. No, not I think it's just the importance of now getting it right when it comes to the future growth in this community.

In relation to the specifics of the Earnest Consulting report, last Monday after the hearings opened and I went out to get some lunch a resident stopped me at the entrance to the council, introduced themselves, and said they were still battling an issue where there was councillor interference and a councillor went on his site with a council employee, and I said, "Look, they're operational matters, I can't really help you, speak to the general manager". It just - it's a never ending - never ending.

- Q. Can I clarify, was that something that was happening post local planning panel even?
- A. No, it would have been prior.
- Q. And I assume that's prior to the suspension as well, based on --
- A. Oh, yes, yes. And look, an observation I would make is that, if everything was going so well in a planning department, why did residents feel the need to engage former council employees to navigate the complexity of the council systems? And that happens still today with recently departed employees.
- Q. Can I ask you a few specific questions about the report. I might start high level at least. On page 437 there are the observations by Earnest Consulting. I won't go through every of them, but did you by and large agree with the observations that have been paid by Earnest Consulting from your own experience and from your own feedback?
- A. I was surprised by the observations; they seemed even stronger than what I thought.
 - Q. Turning to a couple of specific issues, can you pop

over the page to page 438. The third paragraph down there, Mr Ryan concludes:

There appears to be a very limited adherence by the elected council and senior staff to the normal pillars of the Local Government Act regarding the relationship between Councillors and staff. The use of the Code of Conduct, declaration of interests in planning matters and detailed and comprehensive communications with the community are not seen to be adhered to by staff or the community.

 Could I ask two questions there. It refers to the impressions of the community; does that accord with what you understand the impression of the community to be from your consultations and experience?

- A. Yes, and this is to me, this is another source coming from another angle confirming that view.

Q. In respect to the observation:

 There appears to be limited adherence by the elected council and senior staff to the normal pillars of the Local Government Act regarding the relationship between Councillors and staff.

Was that your experience as well?

A. Most definitely.

- Q. Were you aware or did you subsequently become aware of "the normal pillars of the Local Government Act" that Mr Ryan is referring to there?
- A. I would think there he is talking about openness and transparency.

 Q. Just going over to page 445 now, there are five high-level recommendations from Mr Ryan with sub-recommendations. Do you by and large agree with those recommendations and have you taken steps to implement strategies along the lines of those recommendations?

A. Yes, but I think the general manager has taken them

Q. Thank you.

even further now.

1 2 3 4 5	A. And I think, from a staffing perspective, it's extremely important that, through that pathways document, the staff can recognise they're being respected and they're being heard.
6 7 8	MR PARISH: Thank you. Commissioner, I was going to move on from that document for now.
9 10 11	Q. The next topic I want to ask you about over the page in your report is the Civic Centre refurbishment project.
12 13 14 15	THE COMMISSIONER: Which page of the bundle are we going to?
16 17	MR PARISH: That is page 6 of the report and it is page
18 19	THE COMMISSIONER: 249?
20 21	MR PARISH: 249, yes, correct.
22 23	THE WITNESS: Sorry, 249, is it?
24 25 26 27 28	MR PARISH: Q. At page 249 there's a dot point which commences, "Civic Centre Refurbishment Project". Can you give the inquiry some explanation about how capital expenditure of this type works when the council wants to spend a significant amount of money on a council asset or a
29 30 31 32 33	strategic asset? A. Well, the council should do a business plan, then you have to make application to OLG for the expenditure of the monies; that's, in short, what happens.
34 35 36	Q. And there are OLG procedures in place A. Yes, yes.
37 38 39 40 41	 Q for the sorts of expenditure that we're talking about there? A. There's a rule, I think it's \$1m or 10 per cent of rate income, or something like that, but there are clear rules which - and I think they might be a CEO's directive
42 43 44 45	from LG NSW. There's a provision in the Act where THE COMMISSIONER: Q. 23(a), was that the one? A. I'm not sure.
46 47	Q. The thing that says that, when a directive comes down

- A. There's another directive that the CEO can give, and I can have a look later that might be it, but in other words, you've got to do it.
- Q. I see, yes, well, that seems stronger than 23(a). Yes, thank you.

MR PARISH: Can I just pause to say, Commissioner, it's 1 o'clock now. Given that Mr May's the only witness for the day, subject to your convenience and officers, I think I can push through and maybe finish in the next half hour.

THE COMMISSIONER: Yes. Mr May, ordinarily I'd take a luncheon adjournment about now, but seeing as though Counsel Assisting only has about half an hour to go with you, are you happy to sit on? If you need a break at any time, just tell me?

- A. Oh, no, no, I'm happy.
- Q. Happy to sit on? Well, if you need a break, just let me know and that can be accommodated. Mr Parish?
- MR PARISH: Q. We're obviously sitting in the Civic Centre now so I don't need context necessarily about the fit-out and the refurbishment that was taking place, but can you tell the inquiry why it was necessary or the context around why you commissioned a report from Finch Consulting about it?
- A. From Finch?
- Q. Yes.
- A. I commissioned that report because of what was said by certain councillors at the meetings, either the 9th or the 10th, and I had a look myself and I was confused. Now, I'm not saying I'm a finance professional, but I understand the basics, and I just couldn't add it up. And then when I looked further, and I was tipped off to the fact that the capex hadn't been done to OLG properly, and then it was Mr McMahon really who raised concerns with me about the council's application, saying it was all about occupational health and safety at the end of the day, and apparently not much has happened outside of public areas and the executive areas.

I then took an interest in how come - and I'm precising this down - how come all of a sudden, when it's not in any plans and it's not disclosed to OLG, that you can get officers for the mayor and general manager, which I can only describe as palatial, you're quite welcome to go and have a look. I feel quite embarrassed sitting in there when I consider what the staff are sitting in, but I'm afraid, I just can't get to the truth, I don't know what's happened.

Last I knew the general manager was having a look at emails, but she indicated to me that - my words, not hers - that the emails say in effect, "Come and see me", rather than having a line, and I'm still at a loss to understand - I understand there was leaks and something had to happen, you know, but the grandeur of it all when this was not the reason why they were doing it as I understood it, is a bit over-the-top.

- Q. When you say there were emails to the extent of "come and see me", what level are we talking about: councillor to councillor, executive staff to executive staff?
- A. No, executive level, and look, I I don't know who's been talking to you, but certain employees of this place have tipped me off to stuff, but they're frightened to put their head up because, you know, council will come back and the ballot box will determine who's elected.
- Q. You may have seen council meetings in which matters about the Civic Centre refurbishment are raised. In your view was the dialogue and what was tabled at council meetings done appropriately and transparently?
- A. Totally inappropriate, and I think this is another case where things have been done in what they call briefings or workshops. Look, I've been in local government a long time and I've seen now a lot of councils: I've never seen workshops and briefings like this. It's just I just it's not a transparent way to do business and, you know, no wonder the community is suspicious, and councillors who weren't in the know.
- Q. Can I ask you in your experience what the purpose of those briefings or workshops should be in a normal council process?
- A. Well, I might be old school, but I come from a position where, if you can't put enough information in a report for a councillor to make an informed decision, get

This idea of counting numbers and seeing another job. where the land lies at workshops and briefings, I just can't agree with them. And you might notice that I've changed the code of meeting procedures here, and we actually had one yesterday, a workshop which will be reported to council. I don't want to be critical of the staff, I thought it was fabulous, but they could have put it in a report and I could have read it. But in fairness it was very beneficial for the residents who came because they were able to see a bit behind the scenes, but we could do that by having a committee of the whole. There's an opportunity for that which is a less formal way of doing a meeting.

But my personal view is that I think the Code of Meeting Practice, the model Code of Meeting Practice, should be amended to make it mandatory that workshops and briefings are reported back to council. Look, there are reports that I've heard where, you know, there were donnybrooks at these briefings and workshops at this council as well, you know.

- THE COMMISSIONER: Q. As part of that, do I understand you to be of the view that workshops and briefings should be public?
- A. Well, I did it at Armidale because they they went to tender to sell an airport at a briefing, following a briefing, and when I came here I took particular interest in it, but they've taken it to a new level, the briefings here, you know.

 Q. I'm just having in mind your views about the model Code of Meeting Practice; do you think that it should specify as the default position that briefings and workshops should be public -- A. Yes.

Q. -- whether streamed or members of the public can come and view; is that your view?

A. Yes, yes.

Q. And, aside from the obvious transparency benefits, are there any other benefits that you see in having those briefings and workshops public rather than held confidentially?

A. Well, I would hope it would lead councils to do stuff in either committee or full council where there are strict

Now, I know that this council changed their Code of Meeting Practice to do that, however, it's not a mandatory provision.

Q. Yes. So, accompanied with a recommendation perhaps that the model code should specify briefings and workshops to be public would, I assume, carry with it the option to declare part of it confidential if appropriate in accordance with the confidentiality provisions in 10(b) - I'm stretching my memory about the confidentiality provisions of meetings in the Act. Some matters might be confidential and properly so; do you agree with that?

A. I still prefer to deal with confidential matters in a more formal arena.

Q. Yes, being a council meeting?

A. Yes, or a committee meeting where there's ample opportunity and you can do it.

Q. I see.

A. But I think for the betterment of local government generally these briefings are taking off and I think that then breeds a bit of suspicion with residents, or here it has for sure.

Q. And, if they were public, would it in your view deter informal decision-making in briefings which shouldn't be happening?

A. Definitely, yes, and it would be for people to see what is actually - what is actually happening.

Q. Would it also ensure or guard against the risk that, real or perceived, some councillors may feel they have less information than others?

A. Yes, because you will find that some councillors as a matter of principle won't go to briefings; is there a wake-up to what goes on?

Q. Yes.

THE COMMISSIONER: Yes, I understand. Yes, Mr Parish.

17

18 19

20 21

22

23

24

25

26 27

I don't quite understand what you mean by MR PARISH: "count heads", could you explain?

- Well, if you haven't got the numbers, don't waste your Look, and actually, from recollection at the meeting on the 10th, I think it was, when this council was giving consideration to the future of the council, there was a reference by one of the councillors to the briefing, "Oh, well, we made that decision in the briefing", I'm pretty confident I heard that, and that was about this building and the expenditure of the money, the \$700,000 or \$800,000 next door. You Know, that's not good enough.
- I was going to ask you about it later but I might raise it now. Immediately above your preference to the Civic Centre refurbishment project in your 10 August report, you refer to the de facto council meetings. that what we've just been talking about, this propensity for the council to have closed briefings and effectively make decisions which ought to have been made in open council meetings?
- Yes. Α.

28 29 30

31

32

33

34

35

36

Where did your knowledge and information of that come from? Was it staff who were reporting back to you that this was the sort of thing that was going on? Staff and some councillors. Some councillors in my discussions expressed concern about the number, and they were surprised by my view that it is the obligation of a council officer through the general manager to provide

enough information to council, as the governing body, to be 37 able to make a decision. 38

39 40

41

42 43

44

45

46

- THE COMMISSIONER: Q. With that view then, should there be a need for briefings at all, do you think?
- I would think in my over 20 years as town clerk and general manager of Mosman, unless there was a specific resolution of the council, I don't think there would have even been a briefing. I just didn't agree with them because of the problems that they can lead to. But if the council resolves - say the housing strategy, they want to

- Q. I want to speak generally about your experience, not necessarily at this organisation, but if you can tie it to here then so be it. A view might be expressed that the use of briefings can be seen as a convenient way to kick an issue down the road when it should properly be resolved. Do you have a view about that?
- A. I think it's pretty right. And, you know, if there hadn't have been so many briefings on some of the issues here, they wouldn't have got kicked down the road.

THE COMMISSIONER: Yes. Thank you, Mr Parish.

MR PARISH: Q. I might come back to the Civic Centre issue now, and I think I've ascertained an answer from you, but just to ask you outright: did you think there was sufficient information and documentation of the decisions made and the operational aspects that were being dealt with in respect of the Civic Centre?

 Q. In your experience, in respect of an expenditure which was in the multiple millions of dollars and involved borrowing monies potentially for the project, would you have expect more documentation?

That's why I took an interest in it.

A. A lot more.

Q. That was going to be my next question. Was there a significant lack of documentation on the subject?

A. Oh, in my view, yes, and I think that's confirmed, firstly by Mr Finch who looked at the funding of it, and it's my summation, they got there but it was a bit sneaky how they got there with allocating the money, and the report of Mr Smith, I think it was, that was commissioned by the general manager; you know, he hit a brick wall too.

Q. When you say that at least some of the money was "acquired in a slightly sneaky way", are you referring there to the use of estimates which fell under certain caps to avoid certain procedures?

A. No, and maybe I should withdraw "the sneaky way". The

Q. And is that a responsibility which lay at the governing body's feet or the senior staff's feet or both? A. The senior staff, the executive staff, but the governing body has an oversight; there should have been many more questions asked. It wasn't hard to look at the amount of money the council was talking about spending and then look at their application for a DA to see that it didn't add up.

 Q. And that DA process, given that they're the body who deals with DAs, was that DA process appropriately enacted?

A. I can't answer that. All I can say is that since I've been here the panel dealt with the executive area, it had been finished before they'd dealt with it, or substantially finished before they'd dealt with it because they weren't given the opportunity, which - you know, look, I'm afraid it's just another issue in this place.

 MR PARISH: Commissioner, I was going to move on from both the Finch report specifically and from the 10 August report specifically and move on to Mr May's submissions to this inquiry.

THE COMMISSIONER: Yes. Just bear with me a moment.

Q. Just on page 250 of the bundle, do you have that? A. Yes.

Q. There you refer to the New South Wales Ombudsman's report. Just in general terms, I appreciate it's dealt with in some way in this document, but can you just give me an overview of what that was and why you saw it as being a matter of such significance?

A. It related to developer contributions that had been - it's a while since I've looked at this.

Q. Yes.

A. It related to developer contributions which had been fixed some years ago for a development that happened more recently, and the council tried to - well, they did - they increased the developer application to make it more

current, because they hadn't indexed it when they originally did it.

Q. I see.

A. It was their fault.

Q. Yes.

Α.

option, appealed to the council; the council had a bit of a tinnie to the issue. They went to the Ombudsman. My recollection is, the Ombudsman came in and had an initial view and looked at it and had undertakings from the council, but nothing happened. And then they went back to the Ombudsman and the Ombudsman found that the council had failed, in effect, and it was four or five recommendations.

The matter went to council and the staff put up three options for the council, and I don't know whether this was true, but it's my summation, at the briefing the staff would have said which one to vote for and that happened, and then the resident went to the Attorney-General about it. The Attorney-General then went to the Minister for Local Government. I arrive and I get a letter from OLG drawing my attention to it.

The resident then paid, because there was really no

I read the report in the morning. I write my own reports. I moved a motion of urgency and rescinded the council decision in one minute, and in the next minute I adopted all the Ombudsman's recommendations. That happened within 48 hours of me reading that letter from OLG, and it wasn't because OLG and the Attorney-General had written, it was to show the council staff and the community that there was due management, it was open and transparent and there were new rules.

 Q. If you turn to page 252, this is I think related to, or at least informed in part perhaps, by the intervention of various Ministers, the Attorney, the Minister for Finance, et cetera. You say this about halfway down the page:

In my view Wingecarribee Shire Council took the position that it was above the law and the resulting interventions of the Minister for Finance and Small Business to review the experiences of small businesses in the Shire and the Attorney-General to get

5

6 7

8 9

10

11

1

Can you just expand on that and tell me what you were intending to convey?

I was trying to show that, in relation to the Council Chambers I think it's clear they thought they were above Then the Small Business Commissioner's report. that was instigated by the Minister for Finance and Small Business, because they were just getting nowhere with the council, and you probably read my views on all that, and then the Attorney-General was the Ombudsman's letter.

12 13 14

15

16

17

18

- Q. Yes.
- They were just trying to I don't know, they saw themselves as above the law, in my view, and the governing body by their behaviour had no acknowledgement of the Local Government Act when it came to relationships and so, that's - I was just trying to emphasise that.

19 20 21

THE COMMISSIONER: Thank you. Yes, Mr Parish.

22 23

24

25

26 27

28

29

30 31

32

33

34

35

36

37 38

39

- MR PARISH: Q. You've observed meetings of the 2016-2020 council, you've met with councillors, and you've reviewed various documents and talked to members of the community. You might be in as good a position as anyone to give us your impression as to: (a) whether some or all of the councillors did not appreciate their roles and responsibilities and obligations in the sense that they didn't understand them, or whether they understood them and just chose from time to time to ignore them. Do you have an impression of that or too hard to say?
- No, I think it's a mixture of both. I had some difficulty, because of record-keeping, and I know the staff tried hard to get it, I had one go early and another go after the public inquiry was announced to try and look at training for councillors, but look, this goes to the issue at the end of the day, training of councillors, and it's just the process at the present time is just not appropriate, in my view.

40 41 42

43

44

45

46

- Do you mean that in respect of a structural Office of Local Government level or do you mean within this particular council in your experience?
- In particular councils. I think actually it's an obligation now to report to council on training. But look, at Mosman we used to report 10 years ago when I was there

who went and who didn't, because it was important for the community to know. You know, and nine times out of 10 it's those who should go who don't, but you know, I've obviously read the report of the Central Coast and the Commissioner there deals with this matter, but I agree with her that so many people say that councillors are directors; well, directors aren't selected through the ballot box, and they You know, I've done the need a lot of help, I think. directors course and I think the government's got to look at better training if they don't want to have, you know, more repeats of some of the councils I've been at.

11 12 13

1 2

3

4 5

6

7

8

9

10

THE COMMISSIONER: Q. Do you think that should include some consistent base modules of basic competencies? Oh, definitely, yes.

15 16 17

18 19

20

21

22 23

24

14

- Which, whether at the induction stage or over the course of the term should be reinforced through continuing professional development type training?
- Yes, and a good general manager does that, they bring I've seen what the program here was in trainers to help. and there was a huge emphasis on behaviour; not the core issues, behaviour should be taken as accepted, as just the respect and just get on with it, but there was a huge emphasis on that, which tells another story to me but --

25 26 27

28 29

30 31

32

33

34

35

36

37

38

Being the fact that it was so heavily focused towards that, there was obviously a perceived need for repeated training on behaviour; is that what you're driving at? Well, I - respect is not hard and, you know, I come from a school where you don't need a lot of training on that, but training on the complexities of the Local Government Act and what you can and you can't do, I totally support the idea of OLG not LG NSW, who are the advocates for councillors, but the local government department having fixed modules which are compulsory, but you can't have a pass and fail because this is a democracy, but at least people would - candidates and elected persons would have no excuse.

39 40 41

> 42 43

> 44

And part of that, tell me if you agree with this, should go beyond merely recitation of sections of the Local Government Act at people but be driven towards giving them an understanding of the nuances of local government? Α. Sorry?

45 46 47

Q. Sorry, that wasn't a very clear question. Effective

 Q. As well as the complexities of reading financial reports, and engineering reports and planning matters and all those sorts of things; do you agree with that?

A. Yes, definitely. And the Institute of Directors, you know, it's something like that but I don't think it's that, but they do examples and little case studies where councillors or participants can just go together, and you're not a fool if you get it wrong, you just learn, and I think that kind of training rather than death by PowerPoint ...

THE COMMISSIONER: Yes, I understand. Thank you, Mr Parish.

MR PARISH: Q. Mr May, one of the things I was going to do is only address issues in your submission that haven't been already covered in your two reports and the training and induction is one of the matters which you've just helped me with and taken out of my hands, but your reports were provided over a period of time, three months, and then your submission was on 28 October 2021 last year. Have there been any other events or experiences that you've had in the meantime which has changed your view on any matter that you've expressed an opinion on, either for good or for bad?

A. It's only firmed up my view. Since the general manager has been here and she's had the support of very competent local government professionals, and I'm not saying that the people who filled in aren't but they weren't at that level, so much has been uncovered.

 You know, the council at the moment is getting belted up about development issues: well, it's the legacy issues which were caused by, you know, others which are causing a lot of our trouble, and a lot of people have left the organisation because they're not happy with putting the customer or the resident first, but acknowledging there's rules you've got to follow, and the micromanaging is disappearing as I'm told and, you know, I think I firmed up more that this place needs time. I can just imagine it

42 43

44

45

46 47 THE COMMISSIONER: Q. When you say "this place needs time", what do you mean by that?

What I mean is, I can just imagine if there had have been an election in December, I wouldn't have wanted to be the general manager, trying to address the issues in the organisation operationally and dealing with an incoming council.

And what about looking forward to what's stated to be the elections in September of this year; is the organisation better placed or is it still in need of time? Well, I've given this a lot of thought and I think the council needs more time, and I say that there's really and I wrote myself down a little note about this, because the longer the general manager is here and the longer, you know, I think about it, this council needed a circuit breaker, it's been going on for too long, it just went to new levels and it needed a circuit breaker.

The general manager has got to be afforded the time and the opportunity to do a good job. The government is spending a lot of money on this and it's an opportunity to get it right, because it's been wrong for too long.

The other thing I come to is fairness to candidates who are presenting for election. A two-vear term, the councillors won't have worked out what they want as a community strategic plan, there will still be a lot of issues outstanding, and for those reasons I think more time is required to get the place - well, to get it into a situation where the general manager has no excuses, and that's not being detrimental to the general manager, it could be any general manager.

THE COMMISSIONER: Yes, and from that do I understand Q. there's two limbs to your view about that: one is, the organisation is still rebuilding itself or reforming itself to correct some of the legacy issues, and (2), in order to give the incoming governing body the greatest prospect of success in their role they need a strong organisation with them, I suppose, is the appropriate words. Have I understood the driving forces behind your views correctly? Correct, and you know, I am confident from all the people I have spoken to, and there's been hundreds of them, not just a handful, that this place replaced community with

THE COMMISSIONER: Yes, thank you. Mr Parish.

MR PARISH: That actually mops up one of the other last questions I had arising out of the submission that hadn't been dealt with on your other reports.

I don't have any other specific topics to cover, Commissioner, unless I move on.

Q. I do want to put one matter to you, it's in the legal space, we call it a *Browne v Dunn* question -- A. A?

Q. It's called a *Browne v Dunn* question, which is where I put a proposition to you, I'm not agreeing with it, I'm not asking you to agree with it, but it's a proposition that I'm going to put that I want your opinion on. It's the view, at least of some councillors, it appears, that you've adopted a course of conduct designed to undermine them, the suspended councillors. Do you want to react to that? This is your opportunity to disagree or agree with it?

A. By their behaviour they've undermined themselves in the eyes of the public. And if I can just go on from

THE COMMISSIONER: Yes.

that - am I allowed to?

MR PARISH: Q. Yes. You might be pre-empting me, I was about to ask, are there any other topics that you wanted to comment on?

 A. Okay, there's just one other issue which I wanted to raise. Will I do that now?

 Q. Yes, that was the question that I was about to ask. A. It just relates to a press release that was issued the other day by five of the councillors, which I absolutely find offensive, some of the - I've been very careful to not deal with the person but to deal with the corporate and

et cetera, but in that it's reported that I've overseen the first deficit operating budget in 26 years, and I just wonder when the truth is gonna start coming out in writing from some of these people.

This council has had five operating deficits in the last 10 years, and the one we had last year of \$707,000 was the smallest; there hadn't been any for three - or four years prior to this. But it then goes on to say that, you know, it all relates to payments for employees when they're exiting the organisation. Well, a substantial amount went to the exiting of the former general manager which the council organised to happen after 1 July last year. You know, when is this going to stop, the misinformation and the mischief? And I just question whether there's any lessons being learnt.

THE COMMISSIONER: Yes. Mr Parish, I take it this is relevant to Term of Reference 4?

MR PARISH: Yes, it is, and I may just pick up that question in respect of Term of Reference 3 as well. I'll just remind you of Term of Reference 3.

THE COMMISSIONER: Let me just open it up.

MR PARISH: That states:

 Whether members of Council's governing body have been and will continue to be in a position to direct and control the affairs of Council in accordance with the Local Government Act ... and to otherwise fulfil its statutory obligations.

The communications in the press such as the one you've just referred to there, do you have an opinion about whether, firstly, there is a recognition that based on your conclusions they have not fulfilled their roles and responsibilities? And, secondly, do you have an opinion as to whether this sort of conduct suggests that they will be able to fulfil their roles and responsibilities if they are returned?

A. This kind of conduct proves to me that this community needs a circuit breaker. Is it possible for me to table --

Q. I'll do that shortly.

1	A a paper from the staff about this?
2 3 4 5 6 7	THE COMMISSIONER: Mr Parish, perhaps if I take five minutes, then Mr May can provide you what he wants and then you can wrap up this topic in an orderly way. Is that suitable?
8 9	MR PARISH: Thank you, yes, that is.
10 11	THE COMMISSIONER: Yes, I'll adjourn until quarter to 2.
12 13	SHORT ADJOURNMENT
14 15	THE COMMISSIONER: Yes, Mr Parish, are you ready?
16 17	MR PARISH: Yes, Commissioner.
18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 38	Q. Can I start with the document that I provided to you, Mr May, that says "Coomungie got us". Is that the report in the paper that you were talking about just before we had a short break? A. Yes, but I don't know because I haven't read the "Coomungie got us" article, I've only read the press release, so I don't know if it's word-for-word.
	Q. I'll bring that to you now. There's a press release in the bundle of documents that you've taken us to, and the very last document is a press release; is that right? A. Yes.
	Q. And that's the document you were talking about before the break? A. Correct.
	MR PARISH: What I'll do, Commissioner, is I'll tender the actual article from the Southern Highlands Express first and then I'll take Mr May through each of the documents in his bundle.
39 40 41	THE COMMISSIONER: Yes, all right. The article from the Southern Highlands Express of
42 43	MR PARISH: 30 May, I think it is.
44 45 46	THE COMMISSIONER: 30 March.
47	MR PARISH: 30 March, pardon me.

email, do you see that? The next document over is part of

just the third page of the email, the little --

THE COMMISSIONER: Yes, it looks like something has gone wrong with the printing.

Yeah, it just shows up the - as I said earlier, we had

a workshop yesterday afternoon, and I don't get to talk to the staff very often and I got to talk to this officer, and I said to him, "I just can't understand where some of this stuff comes from, particularly next year's statement that there will be - or this year we'll finish up \$800,000 in the red". And I said to him, "Have I missed something?" And, "No, you haven't". And I brought a context to it and then I get an email last night and I just - I don't want to get Damian Jenkins into any trouble about all of this and I don't want him to become a target, because he's a young fellow who's very, very good in my view, but he's offered this to me and I would think in response to this article. and that shows to me through the organisation that they've had enough too.

15 16

12

13

14

The next attachment relates, they're trying to show me how these councillors have got confused suggesting there's an \$800,000 - that they were in effect - this is all very complex, the finances, but the council over-extends itself and there's massive rebates, and the general manager, a part of what she's been doing has been addressing all of these issues. It's a massive job she's undertaking, and a number of matters have been deferred and I think they think this is where this could be coming from.

24 25 26

MR PARISH: Okay, thank you.

27 28

THE COMMISSIONER: Thank you.

29 30

31

MR PARISH: Q. The next document along there is the article we've just been talking about; that's correct? This embargo until 6am Wednesday.

32 33 34

35

36

37 38

I'll still tender that as part of this bundle, Commissioner. Then lastly in this bundle is a press release headed, "Sacking Was Political Say Councillors", embargoed until 6am Wednesday, March 30, 2022. right?

39 40 41

Thank you, Commissioner, I'll tender that MR PARISH: bundle of documents.

42 43 44

THE COMMISSIONER: Bundle of documents tendered Yes. through Mr May will be Exhibit O.

45 46 47

<EXHIBIT #0 - BUNDLE OF DOCUMENTS TENDERED THROUGH MR MAY.</p>

Α.

Yes.

40

41 42

43

44

CR SCANDRETT: The first one is the reference by Mr May to developers ending up with a pot of gold and leaving the problems with the - my words - with the council in relation to up-zoning.

45 46 47

THE COMMISSIONER: Which of my terms of reference does

2	
3	CR SCANDRETT: Well, it would be No.4 again, sir, because
4	it relates to general comments about planning.
5	
6	THE COMMISSIONER: That's not what Term of Reference 4 is
7	directed to. What particular issue arising out of Mr May's
8	observation does it fall within Term of Reference 4?
9	
10	CR SCANDRETT: I would like to just seek clarification of
11	what the size of those problems were that were left behind.
12	Mr May also spoke about the southern bypass along Old South
13	Road as being capable of being funded historically, but it
14	wasn't, so I just want to ask about that. That's the first
15	one.
16	
17	THE COMMISSIONER: Yes. What are the other topics?
18	THE COMMISSIONER. 163. What are the other topics:
19	CR SCANDRETT: The second one is to just confirm who were
20	the five councillors that issued that media release that's
21	been tabled.
22	been tabled.
23	THE COMMISSIONER: I think it's obvious, it's in the
24	article that's in the exhibit.
25	article that 3 in the exhibit.
26	CR SCANDRETT: Does it include a councillor who's retired,
27	is what I wanted to read into the record.
28	13 what I wanted to read thito the record.
29	THE COMMISSIONER: You can see the public exhibit.
30	THE COMMISSIONER. Tou can see the public exhibit.
31	CR SCANDRETT: Yes, thank you. And I'd like to ask
32	Mr May, when he was looking at records of training with
33	staff, did he find much record of the training?
34	starr, are no rine much record or the training:
35	THE COMMISSIONER: Yes. Well, perhaps ask that question
36	first.
37	11130.
38	<examination [2.00pm]<="" by="" cr="" scandrett:="" td=""></examination>
39	[2.00pm]
40	CR SCANDRETT: Q. Mr May, when you were examining
41	council's records in relation to training for councillors,
42	could you outline exactly what you found there or the staff
43	found with you? Was it very complete?
44	A. In relation to the information available, I thought it
45	was very scant and there was, from recollection, no record
46	of who attended. But, as I understand it, that information
47	
47	has been made available to the Commission inquiry.

that go to?

1

35

38

41 42

43

Well, take a moment to review your THE COMMISSIONER: notes. Leave is not granted generally to ask questions, as you will be aware.

44 45 46

CR SCANDRETT: Okay.

47

1 2 3	THE COMMISSIONER: I need you to explain topics to me and then we'll deal with them in issue. So, if you need a moment, I'm more than happy to give it to you.
4 5 6 7 8 9	CR SCANDRETT: No, I've highlighted them here, Commissioner. It's just a question about open and transparency and also I'd like to drill into the executive and council officer's comments.
10 11 12	THE COMMISSIONER: Right, so what about Station Street do you want to ask Mr May?
12 13 14 15 16 17	CR SCANDRETT: Q. Mr May, you released the, I believe, the complete records on Station Street as one of your first acts of interim administrator here; is that because you believed we should be more open and transparent?
17 18 19 20 21	MR PARISH: Commissioner, he answered that question. Mr May answered his - gave his views on the transparency in the information provided with respect to Station Street.
22 23	THE COMMISSIONER: Yes, I think he has.
24 25 26 27	Q. But, if you can answer the question, you can answer it again? A. I released everything I have, or that the council had because I thought it was in the public interest so to do.
28 29	THE COMMISSIONER: Yes, thank you.
30 31 32	CR SCANDRETT: Thank you.
33 34 35 36	Q. Is there any matters in a council such as this that you think should not be released generally? I know you're going to say staff matters, they're legal matters, they're confidential
37 38 39	THE COMMISSIONER: Well, no.
40 41	CR SCANDRETT: Okay, I'll just ask the question.
42 43 44	THE COMMISSIONER: Ask the question and let the witness answer.
45 46 47	MR SCANDRETT: Q. Are there any matters in council you don't believe should be open and transparent?

1 2 3	THE COMMISSIONER: No, I reject that question, that's not a fair question.
4 5 6 7	Q. Mr May, are there any matters that a council would deal with in its ordinary business that are appropriately kept confidential? A. Of course.
8 9 10 11 12 13 14 15	Q. Headline categories, what sort of matters do you have in mind? A. Staffing matters, commercial in confidence tenders, could be property acquisitions, it could be the lead-up to developer agreements on opening of new estates provided they follow the guidelines; there's a whole host, it would just depend.
17 18 19	Q. And, indeed, the Act makes provision for those categories? A. The Act is very clear.
20 21	THE COMMISSIONER: Thank you. Yes, next question?
22 23 24 25	CR SCANDRETT: That's all, thank you, Commissioner. Thank you, Mr May.
26 27 28	THE COMMISSIONER: Now, there was a topic you foreshadowed as your first topic; have you abandoned that topic or do you wish to put a question in relation to it?
29 30 31 32	CR SCANDRETT: No, I think sufficient now, Commissioner. Thank you, Mr May.
33 34 35	THE COMMISSIONER: Thank you. Mr Parish, anything arising?
36 37	MR PARISH: No, Commissioner.
38 39 40 41	THE COMMISSIONER: Mr May, that completes your evidence, thank you very much for your attendance this morning. I know we've been sitting quite a long session, so I appreciate you bearing with us.
42 43 44	Mr Parish, is there any prospect that Mr May may need to be recalled at some later stage?
45 46 47	MR PARISH: Not at this stage, Commissioner.

1 2	THE COMMISSIONER: Do you want to reserve your position on that?
3 4	MR PARISH: Yes, of course.
5 6 7 8 9 10 11	THE COMMISSIONER: Mr May, I won't formally excuse you from your summons just yet in case there's some small prospect that Mr Parish might need to ask you some more questions, I don't think that'll arise at the moment but, if it does, he will be in contact with you.
12 13	THE WITNESS: Thank you.
14 15	THE COMMISSIONER: Thank you for your time.
16 17	<the td="" withdrew<="" witness=""></the>
18 19 20	THE COMMISSIONER: Mr Parish, is there anything else I need to do today?
21 22 23	MR PARISH: Not today, Commissioner, we have no further witnesses.
24 25 26	THE COMMISSIONER: In terms of witnesses for tomorrow, that is still a work-in-progress?
27 28 29 30 31	MR PARISH: It is. It appears we may have Ian Reynolds first thing in the morning, but it is a slight work-in-progress, we have to do some shuffling at the moment.
32 33 34 35 36 37 38 39	THE COMMISSIONER: All right. Well, if an updated list can be put up on the website sometime today, but for the moment for those who are interested we anticipate Mr Reynolds being the first witness and, we'll keep everybody updated as we can, but it's not simply a matter of moving pieces around a table, there's a lot that goes into it, so that work will be being done in the background.
40 41	All right, I'll adjourn until 10am tomorrow.
42 43 44 45	AT 2.06PM THE INQUIRY ADJOURNED TO WEDNESDAY, 6 APRIL 2022 AT 10.00AM
