* Currently, a link takes customers from SNSW to the NSW Pet Registry where they can create a profile and proceed through the registration process.

[^] SNSW will facilitate registration payments via MyServiceNSW Accounts online and over the counter transactions. Customers can also access information support over the phone. Customers who can make payment via the SNSW online channel can also make payments directly through the NSW Pet Registry, and at their local council. Over the counter transactions made at SNSW service centres will also accommodate all eligible pension types. Only aged pensioners can make payments online, using either SNSW or the NSW Pet Registry.

[#] Customer address details will be updated to match current SNSW MyServiceNSW address details.
